*The Burbank Cherry: The Explanation of a Double Improvement*, *The Perfect Fruit* Chip Brantley, 2009-07-01 There is no such thing as non genetically altered fruit Even that organic peach or heirloom tomato is the result of hundreds and even thousands of years of crossbreeding Since the dawn of agriculture people have been obsessively tinkering to develop fruits that are hardier healthier and better tasting After a couple millennia of this a handful of farmers in California's San Joaquin Valley believe they just may have developed the perfect fruit a sweet juicy luscious plum apricot hybrid known as a pluot In *Pluot* William Brantley goes in search of what it takes to trick nature into producing culinary greatness and to bring it to a market near you The story begins with Floyd Zaiger a humble and wily farmer who is arguably the greatest fruit breeder in the world From there it stretches both back and forward back through a long line of visionaries fruit smugglers and mad geniuses many of whom have been driven to dazzling extremes in the pursuit of exotic flavors and forward through the ranks of farmers scientists and salesmen who make it their life's work to coax deliciousness out of stubborn and unpredictable plants The result is part biography part cultural history and part horticultural inquest a meditation on the surprising power of perfect food to change the way we live Official Report of the ...
