Wielema,2011-11-11 Ever since it was first written Adriaan Koerbagh s anti Christian work A Light Shining in Dark Places has been nearly inaccessible Had it been known during the Enlightenment it would have been a great inspiration to radical thinkers However it was suppressed and the author died in jail The full text is now available in English Koerbagh demolishes such Christian notions as the Creator the Trinity the divinity of Jesus heaven and hell angels devils and miracles Instead he presents a monistic world view in which Nature and God are identical Theology is a part of natural science God can only be worshipped by acting rationally Koerbagh s rational religion is intended to contribute to a free peaceful and liberal society
