attention to are explained The occupational body language deals with the kind of body language you automatically use according to your job and workplace Because of our field of studies we will go into the effective use of meetings which might be seen as a little guide to the future To ensure a good work climate attitudes to workmates play an important role because in regard to your behaviour you will be either respected or disrespected And because it is important for business people to know if their opposite is lying we figured out the main aspects to expose the liar With our last point we are trying to show how easy it is to manipulate your own body language which makes it even harder for others to understand the meaning of it
