**Morality Collapses** Stephen Kershner, 2025-06-27 This book argues that consequentialism and non consequentialism are false because they face metaphysical and intuitional problems The two theories exhaust the theories of the right so there is no rightness This result matters because it requires us to give up widely held beliefs regarding knowledge moral responsibility and reasons for action The author's argument is unique because it focuses on applied ethical arguments rather than metaethical issues Specifically it avoids metaethical discussions of whether morality explains our thoughts and actions how we know about morality and whether the denial of morality is self defeating The author specifically argues against consequentialism and non consequentialism in the following ways Metaphysical Problems Consequentialism and non consequentialism are false because they need a theory of counterfactuals and backtracking that they cannot have Rights Problems Non consequentialism is false because non consequentialism depends on rights and people do not have rights They do not have rights because of problems regarding moral responsibility right grounding and self ownership Circularity Non consequentialism is false because the basic building blocks of non consequentialism desert rights and virtue are circular Morality Collapses will be of interest to researchers and graduate students working in normative ethics metaethics moral responsibility and political philosophy MacMillan's Magazine Sir George Grove, David Masson, John Morley, Mowbray Morris, 1888 A History of the warfare of science with theology in Christendom v. 2 Andrew Dickson White, 1897 *The History of the Peoples of the Eastern Desert* Hans Barnard, Kim Duistermaat, 2012-12-31 The last quarter century has seen extensive research on the ports of the Red Sea coast of Egypt the road systems connecting them to the Nile and the mines and quarries in the region Missing has been a systematic study of the peoples of the Eastern Desert the area between the Red Sea and the Nile Valley in whose territories these ports roads mines and quarries were located The historical overview of the Eastern Desert in the shape of a roughly chronological narrative presented in this book fills that gap The multidisciplinary perspective focuses on the long term history of the region The extensive range of topics addressed includes specific historical periods natural resources nomadic survival strategies ancient textual data and the interaction between Christian hermits and their neighbors The breadth of perspective does not sacrifice depth for all authors deal in some detail with the specifics of their subject matter As a whole this collection provides an outline of the history and sociology of the Eastern Desert unparalleled in any language for its comprehensiveness As such it will be the essential starting point for future research on the Eastern Desert Includes a CD of eleven audio files with music of the Ababda Nomads and six short videos of Ababda culture *Seen in a Mexican Plaza* George F.
