## **The Diamond Healing Tibetan Buddhist Medicine And Psychiatry:**

**Tibetan Buddhist Medicine and Psychiatry** Terry Clifford, 1994-01-01 Tibetan medicine is a unique and holistic system of healing. It has been continuously practiced for over a thousand years but has still to take its place in the history of medicine as we know it in the West. This volume presents for the first time a comprehensive introduction to the arcane Tibetan art of healing. The author has provided a well documented original and detailed study of Tibetan psychiatry the world's oldest system of medical psychiatry. Translated here for the first time in English are three fascinating chapters about mental illness from the rGyud bzhi the ancient and most important Tibetan medical work. Reproductions of the rare Tibetan texts are also included. Supplementing these translations are extensive explanations of Tibetan psychiatric theory and treatment drawn from the author's research and interviews with Tibetan refugee doctors in India and Nepal. Great care has been taken to identify over 90 pharmacological substances used in Tibetan psychiatric medicines and these are listed in an appendix along with their English and Latin botanical names. Deeply researched and clearly written this work will be of interest to both scholars and general readers in the fields of Buddhist studies, holistic healing, Oriental medicine, transpersonal psychology, ethnopsychiatry and medical anthropology.

**The Diamond Healing** Terry Clifford, 1989      **Buddhism and Psychiatry** Brendan Kelly, 2025-08-01 This Open Access book explores the emergence of mindfulness from Buddhist tradition and its incorporation into contemporary mental health and social care. Mindfulness is a powerful technique but it needs to be applied mindfully. Buddhist thought has older links with psychiatry and mental health care prior to the current embrace of mindfulness and these have not been articulated clearly over recent decades. These links are intrinsically valuable and have added relevance in an era of mindfulness. This book seeks to bring these associations and connections back to light and contextualise recent enthusiasm for mindfulness based interventions. This book is aimed at readers who are interested in mental health, psychiatry, Buddhism and mindfulness. These are all growing areas of interest and inquiry. This book is distinctive owing to its focus on links between psychiatry, mental health care and Buddhism that include but also move beyond mindfulness. This book is also distinctive by virtue of the fact that it is written by someone who is both a psychiatrist in clinical practice and a researcher as well as being qualified in Buddhist Studies MA University of Sunderland 2010 and Mindfulness Based Interventions MSc University College Dublin 2023 and publishes across all of these fields.      Diamond Healing Terrence Clifford, 1982      Sacred Passage Margaret Coberly, Ph.D, RN, 2003-02-11 Working as an emergency room nurse Margaret Coberly came in contact with death on a daily basis. However it wasn't until her own brother was diagnosed with terminal cancer that she realized she understood very little about the emotional and spiritual aspects of caring for the terminally ill. To fill this gap she turned to the unique wisdom on death and dying found in Tibetan Buddhism. In this book Coberly offers sound practical advice on meeting the essential needs of the dying integrating stories from her long career in nursing with useful insights from the Tibetan Buddhist teachings. In the West death is viewed as a tragic and horrible event.

Coberly shows us how this view generates fear and denial which harm the dying by adding unnecessary loneliness confusion and mental anguish to the dying process Tibetan Buddhism focuses on the nature of death and how to face it with honesty openness and courage In this view death is not a failure but a natural part of life that if properly understood and appreciated can offer the dying and their loved ones an opportunity to gain valuable insight and wisdom Coberly argues that the Tibetan Buddhist outlook can be a useful antidote to the culture of fear and denial that surrounds death in the West and can help caregivers become more fully present fearless honest and compassionate Sacred Passage highlights two very practical teachings on death and dying from the Tibetan Buddhist tradition and presents them in clear nontechnical language Readers learn about the eight stages of dissolution leading to death a detailed roadmap of the dying process that describes the sequence of physical psychological and spiritual changes that occur as we die Coberly also presents the death meditation a contemplative exercise for developing a new relationship to death and life The book also includes a lengthy annotated list of recommended readings for added guidance and inspiration Topics include How the terminally ill can experience emotional and spiritual healing even when they can't be cured Why Western medicine's relentless focus on curing disease has led to inadequate care for the dying What to expect during the dying process How our fear and denial of death harm the dying Techniques to help caregivers promote a peaceful environment for the dying and their loved ones How to meet the changing physical and emotional needs of the dying Helpful advice on what to say and how to behave around the terminally ill
