James George Frazer

The Gods:

The Gods of Pegana Lord Dunsany, 2021-01-01 The Gods of Pegana by Lord Dunsany In this captivating collection of fantasy tales Lord Dunsany introduces readers to the mythical realm of Pegana and its pantheon of deities Through evocative prose and vivid storytelling Dunsany weaves a tapestry of otherworldly adventures and divine beings The Gods of Pegana transports readers to a realm of imagination wonder and exploration of the human fascination with the divine Key Aspects of the Book The Gods of Pegana Mythical World Building Dunsany crafts a rich and immersive fantasy world filled with gods magic and awe inspiring landscapes Exploration of Deities The book delves into the characteristics and roles of the gods of Pegana exploring the complexities of divine personalities Themes of Creation and Existence Readers encounter stories that ponder the origins of the universe and the existential questions that captivate the human mind Lord Dunsany was an Anglo Irish writer and dramatist born in 1878 His fascination with mythology folklore and ancient legends served as a wellspring of inspiration for his works Dunsany's ability to conjure ethereal worlds and captivate readers with his storytelling earned him recognition as a leading figure in fantasy literature Through The Gods of Pegana he invites readers to immerse themselves in a realm of imagination and wonder *Gifts for the Gods* Dmin Justice, 2008-12 From the earliest recorded history to the present day humans have made sacrifices to their gods Sacrifices have included everything of value from grains of rice to human lives The author surveys sacrificial practices on all continents across the ages Some still make human sacrifices Despite Judaism's prohibition of human sacrifices the Bible represents Jesus a Jew as having given Himself daily in behalf of those around Him and ultimately as a sacrifice for the sins of humankind To the church in Ephesus the Apostle Paul wrote Walk in love as God has loved us and given Himself as an offering and a sacrifice to God Eph 5 2 To the church in Rome he added I appeal to you brethren and beg you in full view of all the mercies of God to make a decisive dedication of your bodies presenting all your members and facilities as a living sacrifice Rom 12 1 AB Christianity still requires sacrifices living sacrifices of our whole selves The Names of the Gods in the Kiche Myths, Central America Daniel Garrison Brinton, 1881

Religion of the Gods Kimberley Christine Patton, 2009 In many of the world's religions both polytheistic and monotheistic a seemingly enigmatic and paradoxical image is found that of the god who worships Various interpretations of this seeming paradox have been advanced Some suggest that it represents sacrifice to a higher deity Proponents of anthropomorphic projection say that the gods are just big people and that images of human religious action are simply projected onto the deities However such explanations do not do justice to the complexity and diversity of this phenomenon In Religion of the Gods Kimberley C Patton uses a comparative approach to take up anew a longstanding challenge in ancient Greek religious iconography why are the Olympian gods depicted on classical pottery making libations The sacrificing gods in ancient Greece are compared to gods who perform rituals in six other religious traditions the Vedic gods the heterodox god Zurvan of early Zoroastrianism the Old Norse god Odin the Christian God and Christ the God of Judaism and Islam's Allah Patton examines

the comparative evidence from a cultural and historical perspective uncovering deep structural resonances while also revealing crucial differences Instead of looking for invisible recipients or lost myths Patton proposes the new category of divine reflexivity Divinely performed ritual is a self reflexive self expressive action that signals the origin of ritual in the divine and not the human realm Above all divine ritual is generative both instigating and inspiring human religious activity The religion practiced by the gods is both like and unlike human religious action Seen from within the religious tradition gods are not big people but other than human Human ritual is directed outward to a divine being but the gods practice ritual on their own behalf Cultic time the symbiotic performance of ritual both in heaven and on earth collapses the distinction between cult and theology each time ritual is performed Offering the first comprehensive study and a new theory of this fascinating phenomenon Religion of the Gods is a significant contribution to the fields of classics and comparative religion Patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself **Twilight of the Gods** David

Penchansky,2005-01-01 Since the middle of the twentieth century one of biblical scholarship s chief assumptions has been that ancient Israel evolved out of the polytheism of surrounding cultures into an ethical monotheism However this consensus has fallen apart in recent years Scholars now know that early Israel was surrounded by a very polytheistic culture and that many Israelites thought of Yahweh as the chief God among many gods Furthermore archaeology has shown that Yahweh was worshiped along with other gods throughout the period after the exile when many shrines were in honor of Yahweh and his Asherah David Penchansky s Twilight of the Gods is the first accessible book that shows a historical Israel where polytheism and monotheism existed simultaneously in great conflict He provides a historical introduction followed by close readings of key Old Testament passages where he demonstrates how to interpret difficult biblical texts that depict other gods or claim Yahweh is the only God within this new understanding of Israelite religion **The Realm of the Gods** Colin Metcalfe

The Golden Bough: The Dying God. The Mortality of the Gods The Killing of the Divine King James George Frazer,1955 Frazer s series which attempted to define the shared elements of religious belief and scientific thought discussing fertility rites human sacrifice the dying god the scapegoat and many other symbols and practices whose influences had extended into 20th century culture His thesis is that old religions were fertility cults that revolved around the worship and periodic sacrifice of a sacred king Frazer proposed that mankind progresses from magic through religious belief to scientific thought **The Encyclopædia Britannica** ,1893 **Baptist Missionary Review** ,1898 **Physical religion**
