Women Constructing Men Sarah S. G. Frantz, Katharina

Rennhak, 2009-12-03 Female novelists have always invested as much narrative energy in constructing their male characters heroes and villains as in envisioning their female protagonists but this fact has received very little scholarly attention to date In Women Constructing Men scholars from Australia Canada Germany Great Britain and the United States begin to sketch the outline of a new literary history of women writing men in the English speaking world from the eighteenth century until today By rediscovering forgotten texts rereading novels by high canonical female authors refocusing the interest in well known novels and analyzing contemporary narrative constructions of masculinity the contributing scholars demonstrate that female authors create male characters every bit as complex as their male counterparts Using a variety of theoretical models and coming to an equal variety of conclusions the essays collected in Women Constructing Men skilfully demonstrate that the topic of female authored masculinities not only allows scholars to re-read and re-discover almost every novel ever written by

a woman writer but also triggers reflections on a host of theoretical questions of gender and genre. In re examining these male characters across literary history these articles extend the feminist question of Who has the authority to create a female character to Who has the authority to create any character *Digital Gaming Re-imagines the Middle Ages* Daniel T. Kline, 2013-09-11

Digital gaming's cultural significance is often minimized much in the same way that the Middle Ages are discounted as the backward and childish precursor to the modern period. *Digital Gaming Reimagines the Middle Ages* challenges both perceptions by examining how the Middle Ages have persisted into the contemporary world via digital games as well as analyzing how digital gaming translates, adapts, and remediates medieval stories, themes, characters, and tropes in interactive electronic environments. At the same time, the Middle Ages are reinterpreted according to contemporary concerns and conflicts in all their complexity. Rather than a distinct time in the past, the Middle Ages form a space in which theory and narrative gaming and textuality, identity and society, are remastered and reimagined. Together, the essays demonstrate that while having its roots firmly in narrative traditions, neomedieval gaming where neomedievalism no longer negotiates with any reality beyond itself and other medievalisms creates cultural palimpsests, multiply layered, trans-temporal artifacts. *Digital Gaming Re-imagines the Middle Ages* demonstrates that the medieval is more than just a stockpile of historically static facts but is a living, subversive presence in contemporary culture.

Karen Horney and Character Disorder Irving Solomon, PhD, 2005-09-07

Who is Karen Horney and why are her psychoanalytic ideas so important in today's world of once per week dynamic psychotherapy? Horney was one of the first analysts to challenge basic Freudian assertions such as the psychoanalytic account of female development. She had a revolutionary focus on present oriented treatment and a powerfully optimistic attitude toward patient growth and change. This book introduces, defines, and illustrates the major tenets of Horney's theory and technique, discusses Horney's means of fostering an optimistic attitude that strengthens therapy between therapist and the patient, demonstrates the special suitability and the effectiveness of Horney's ideas as they are applied to character disorder, and to today's most frequent form of treatment, once per week session psychotherapy. It presents criticisms of Horney's ideas, Dr. Irving Solomon prepares practitioners to conduct Horneyan therapy and successfully treat character disorder, the most common dysfunction of our time. Dr. Solomon presents in a concise and organized fashion Karen Horney's ideas regarding character psychopathology, accompanied by many illustrative vignettes for practical application. Today's clinician will find that Horney's orientation provides a means of conducting brief treatment that is also meaningfully deep. This book will be of interest to mental health professionals as well as to lay individuals who seek knowledge of the self since it realistically, vividly, and authoritatively touches on a multitude of common, easily recognized character trends that destructively complicate our well-being.

Cinematography of Carl Theodor Dreyer Paul Matthew St. Pierre, 2018-11-19

Legendary Danish filmmaker Carl Theodor Dreyer (3 February 1889–20 March 1968) was born in Copenhagen to a single mother, Josefine Bernhardine Nilsson, a Swede. His Danish father, Jens Christian Torp, a married farmer, employed Nilsson as a

housekeeper After spending his first two years in orphanages Dreyer was adopted by Carl Theodor Dreyer a typographer and his wife Inger Marie Dreyer He was given his adoptive father s name At age 16 he renounced his adoptive parents and worked his way into the film industry as a journalist title card writer screenwriter and director Throughout his career he concealed his birth name and the details of his upbringing and his adult private life which included a period in which he explored his homosexual orientation and endured a nervous breakdown Despite his relatively small output of fourteen feature films and seven documentary short films 1919 64 he is considered one of the greatest filmmakers in history because of the diversity of his subjects themes techniques and styles and the originality of the bold visual grammar he mastered In Cinematography of Carl Theodor Dreyer Performative Camerawork Transgressing the Frame I argue 1 that Dreyer an anonymous orphan an unsourced subject manufactured his individuality through filmmaking self identifying by shrouding himself in the skin of film and 2 that as a screenwriter director who blocked entire feature films in his imagination in advance sets lighting photography shot breakdowns editing and imposed his vision on camera operators lighting directors actors and crews in production he saw filmmaking essentially as camerawork and he directed in the style of a performative cinematographer
