[The Destruction of Convoy PQ.17](#) David John Cawdell Irving,1980 *The Destruction of Convoy PQ17* David Irving,2011-05-31 [Arms for Russia & The Naval War in the Arctic, 1941-1945](#) Andrew Boyd,2024-11-30 This major new work fundamentally reassesses the operations by the Western allies to deliver war supplies to Russia via the Arctic sea route between 1941 and 1945 It explores the motives underpinning Western aid its real impact on the Soviet war effort and its influence on wider Allied and German strategy as the war developed It brings to life key participants political and military describes the interaction of intelligence with high policy and tactics and brings a fresh perspective to key events including the notorious convoy PQ 17 The book disputes the long standing view that aid to Russia was essentially discretionary lacking military rationale and undertaken primarily to meet political objectives with only a minor impact on Soviet war potential It shows that aid was always grounded in strategic necessity with the Arctic supply route a constant preoccupation of British and American leaders absorbing perhaps twenty per cent of Royal Navy resources after 1941 and a significant share of Allied merchant shipping badly needed in other theaters The Soviet claim determinedly promoted through the Cold War that aid was marginal still influences attitudes in Vladimir Putin s Russia and contemporary Western opinion It even resonates through the present war in Ukraine Andrew Boyd demonstrates that in reality Western aid through the Arctic was a critical multiplier of Soviet military power throughout the war and perhaps even enabled Russia s very survival in 1942 and he makes plain that the British contribution to the aid effort was greater than generally acknowledged The book also emphasises that the Arctic conflict was not framed solely by the supply convoys important though they were British German and Russian operations in a theater defined by Adolph Hitler in early 1942 as the zone of destiny were shaped by other perceived opportunities and threats For instance Germany concentrated its fleet in Norway to forestall a potential British attack while attempting land offensives to cut Russia s links with its northern ports It also had vital raw materials to protect Britain explored potential operations with Russia to dislodge Germany from the Arctic coast and sever her access to important resources Elegantly written written and incorporating many new perspectives on the Arctic theater this new work should find a place on the shelves of every historian scholar and enthusiast whose interests extend to the Russian dimension of the Second World War [Hitler's Northern War](#) Adam R. A. Claasen,2001 Adolf Hitler had high hopes for his conquest of Norway which held both great symbolic and great strategic value for the Fuhrer Despite early successes however his ambitious northern campaign foundered and ultimately failed Adam Claasen for the first time reveals the full story of this neglected episode and shows how it helped doom the Third Reich to defeat Hitler and Raeder the chief of the German navy were determined to take and keep Norway By doing so they hoped to preempt Allied attempts to outflank Germany protect sea lanes for German ships access precious Scandinavian minerals for war production and provide a launchpad for Luftwaffe and naval operations against Great Britain Beyond those strategic objectives Hitler also envisioned Norway as part of a pan

Nordic stronghold a centerpiece of his new world order But as Claasen shows Hitler's grand expectations were never realized. Gring's Luftwaffe was the vital spearhead in the invasion of Norway which marked a number of wartime firsts. Among other things it involved the first large scale aerial operations over sea rather than land the first time operational objectives and logistical needs were fulfilled by air power and the first deployment of paratroopers. Although it got off to a promising start the German effort particularly against British and arctic convoys was greatly hampered by flawed strategic thinking interservice rivalries between the Luftwaffe and navy the failure to develop a long range heavy bomber the diversion of planes and personnel to shore up the German war effort elsewhere and the northern theater's harsh climate and terrain. Claasen's study covers every aspect of this ill fated campaign from the 1940 invasion until war's end and shows how it was eventually relegated to a backwater status as Germany fought to survive in an increasingly unwinnable war. His compelling account sharpens our picture of the German air force and widens our understanding of the Third Reich's way of war.

[The Veterans' Tale](#) Frances Houghton, 2019-01-10 This is a unique account of the ways in which British veterans of the Second World War remembered understood and recounted their experiences of battle throughout the post war period. Focusing on

themes of landscape weaponry the enemy and comradeship. Frances Houghton examines the imagery and language used by war memoirists to reconstruct and review both their experiences of battle and their sense of wartime self. Houghton also identifies how veterans' memoirs became significant sites of contest as former servicemen sought to challenge what they saw as unsatisfactory official scholarly and cultural representations of the Second World War in Britain. Her findings show that these memoirs are equally important both for the new light they shed on the memory and meanings of wartime military experience among British veterans and for what they tell us about the cultural identity of military life writing in post war British society.

[Battling With the Truth](#) Ian Garden, 2016-07-04 Think of the press as a great keyboard on which the government can play. Joseph Goebbels Reich Minister of Public Enlightenment and Propaganda. Dunkirk, Stalingrad, the Dieppe Raid there were many bloody and gruesome conflicts fought during the Second World War yet there was one vital and aggressive battle in which no blood was directly shed that of the warring nations battle with the truth. In Battling With the Truth a follow up to The Third Reich's Celluloid War Ian Garden offers fascinating insights into the ways by which both the Axis and Allies manipulated military and political facts for their own ends. By analysing key incidents and contemporary sources from both British and German perspectives he reveals how essential information was concealed from the public. Asking how both sides could have believed they were fighting a just war Garden exposes the extent to which their peoples were told downright lies or fed very carefully worded versions of the truth. Often these versions gave completely false impressions of the success or failure of missions even whole campaigns. Ultimately Battling With the Truth demonstrates that almost nothing about war is as clear cut as the reporting at the time makes out. From the past we can learn valuable lessons about the continuing potential for media manipulation and political misinformation especially during wartime.

H. Bennett,Roy Bennett,1999 Winning the Battle of the Atlantic was critical to Britain s survival in the Second World War The British Merchant Navy suffered enormous losses of both ships and men particularly in the early years of the war Sailing through U boat wolf packs across the Atlantic or on the perilous routes to Malta and Murmansk took a special kind of courage Ships often sank within minutes of being torpedoed Survivors is the history of this epic struggle It is a graphic account of how the ships were attacked and sunk how crews reacted how they attempted to launch their lifeboats and how they ended up swimming or clinging to debris or making long voyages in lifeboats or on rafts Death might come at any stage yet the will to live and the resourcefulness and skill of the seamen enabled a surprising number to survive There was a terrific smash and everything was pandemonium on deck The wheel house collapsed on top of me and I was trapped by the concrete slabs which had fallen on me and pinned me to the deck I think that the ship sank in about thirty seconds after breaking in two Although I was trapped I could see everything over my head The stern burst into flames and I saw flames forward I could see the water coming up and coming over my head The ship hit the bottom and turned over the debris was thrown off me and I was released and I came to the surface Sinking of SS Abukir 28 May 1940 **The Mariner's Mirror** Leonard George Carr Laughton,Roger Charles Anderson,William Gordon Perrin,1973
