The Gatling Gun Peter Smithurst, 2015-05-20 A unique chapter in the history of firearms the multibarrel hand cranked Gatling gun was one of the first practical rapid fire weapons ever to be used in battle It changed warfare by introducing the capability to project deadly high intensity fire on the battlefield and portended the devastation that automatic weapons would wreak in World War I During its 50 year career it saw widespread service with US British and other forces on a host of battlefields through conflicts in Zululand and the American West to the Spanish American War Although it saw widespread use in the hands of industrialized nations against various groups of indigenous native warriors it was famously left behind by Custer at the battle of the Little Bighorn where some argue it could have made all the difference Featuring full colour artwork plus contemporary and close up photographs this engaging study investigates the origins development combat use and lasting influence of the formidable Gatling gun

and anecdote the book emphasizes safety and proper usage and it defines terms and provides hands on advice about using and maintaining guns It also covers firearms shooting methods clothing and accessories for women profiles females who shoot and who work in the gun trade and discusses the issues around guns for self defense a topic of special interest to women Like the other two titles this book is non political and written in an easy to understand conversational tone Each book is thoroughly illustrated and content is presented in easily managed portions that can be read in series or singly all backed up with an index
