**The Balham Group** Reginald Groves,1974      **Fighting fascism: the British Left and the rise of fascism, 1919-39**

Keith Hodgson,2013-07-19 In the years between the two world wars fascism triumphed in Italy Germany Spain and elsewhere coming to power after intense struggles with the labour movements of those countries This book available in paperback for the first time analyses the way in which the British left responded to this new challenge How did socialists and communists in Britain explain what fascism was What did they do to oppose it and how successful were they In examining the theories and actions of the Labour Party the TUC the Communist Party and other smaller left wing groups the book explains their different approaches while at the same time highlighting the common thread that ran through all their interpretations of fascism The author argues that the British left has been largely overlooked in the few specific studies of anti fascism that exist with the focus being disproportionately applied to its European counterparts He also takes issue with recent developments in the study of fascism and argues that the views of the left often derided by modern historians are still relevant today      Entryism and the Revolutionary Socialist Left in Britain Nicolas Sigoillot,2023-12-01 This book examines entryism in the context of the revolutionary socialist left in Britain from the inception of the Communist Party of Great Britain in 1920 to the departure of Militant from the Labour Party in 1992 Entryism is a tactic of penetration of a political party by another aimed at accomplishing objectives the nature of which can change depending on the type of entry This work shows to what extent there is not one type of entryism but several The adopted methodology is chronological with introductory chapters that study the context and the previous partial only attempts to define entryism The first part of the volume is dedicated to the relationship between the Communist Party of Great Britain and the Labour Party up until the middle of the 20th century The following two parts are dedicated to British Trotskyists before and after the Second World War In total 17 organisations that have practiced entryism are examined Through their objectives practices and results this work intends to formulate an exhaustive typology of the tactic which fills a definitional gap in political science and covers an aspect of Labour's History that has only been partially covered This volume will be of use to students and scholars interested in the history of the Labour Party and the Far Left in the United Kingdom      **The Longman Companion to the Labour Party, 1900-1998**
