O'Donnell,2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Trauma is no longer and perhaps has never been an uncommon occurrence it is now commonplace in human experience Notoriously difficult to define when one tries to offer a definition of trauma that works across disciplines and beyond the boundaries of subjects one enters a new territory This collection participates in a reconstructive movement in which the boundaries of trauma trauma theory and trauma recovery are flung wide The vastly differing experiences contexts and critical reflections of the contributors serve to ensure this monograph offers a fresh voice in the field of Trauma Studies This collection of essays on trauma seeks to open dialogue and expand discussion Blurring the boundaries of traditional disciplinary lines this monograph strives to interrupt and rupture the debate on trauma It is in the fissures created by such rupture that new and compelling voices can be heard

Vitanza,2011-09-26 This book focuses on rape narratives as grounding for western thinking about community from the polis to nation states specifically in cultures of thinking reading and writing The author rethinks rape or sexual violence through a close examination of how rape is a pedagogy that has become canonized in the form of rape stories *Autobiography and*

Questions of Gender Shirley Neuman,2015-08-14 Originally published in 1991 Addressing the ways in which the ideology of gender and its social construction determine autobiographical self representations the essays here consider several women s works in the light of the social and historical conditions which enabled their production Some examine diaries as a feminine form and ask about the ways in which thematic content such as childbirth can or cannot be represented in diaries and public discourse at different historical junctures Others show the pressures of gender roles and how they have led to new genres in which self representation is often a refraction of the representation of others With the tools of gender theory the representation of hermaphroditism masculinity and male bodies is analysed and the ways in which gender intersects with racial sexual and class ideologies is also looked at in seeing autobiography as a form of agency in self construction

Encyclopedia of Feminist Literary Theory Elizabeth Kowaleski-Wallace,2009-03-23 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company **Mad Muse** Jeffrey Berman,2019-09-03 Many of the well respected scholarly studies of autobiographical writing have little or nothing to say about mental illness This book uncovers the mysterious relationship between mood disorders and creativity through the lives of seven writers demonstrating how mental

illness is sometimes the driving force behind creativity *Man against Being* aurora linnea,2024-11-05 *Man Against Being* diagnoses the manmade world with a terminal case of somatophobia fear of the body Horrified by the facts of the flesh men have spent the last several millennia on the run from and at war with the mortal material reality of the human meatsack This deep rooted antagonism towards biological being has given rise to cultures defined by denial and dread and societies doomed to self annihilation Because life on earth is incarnate men s fantasies of transcendent escape from bodiliness are today proving themselves not only hopeless but deadly Tracing the history of somatophobia from Plato s derision of the body as the soul s prison and tomb to the post embodiment exit strategies of Silicon Valley transhumanists aurora linnea examines how patriarchal civilization has been shaped from its inception by a morbid disavowal of matter physicality and the natural world She weaves together such disparate sources as monster movies medieval literature science fiction and social psychology to expose body horror as the common thread and theme that creeps darkly along the underside of manmade cultures the basic pathology that has poisoned men against life itself And the pains of this pathology are not simply ideological at the center of the systems of oppression and world devouring violence men have engineered the rejected body festers Seeking an antidote to patriarchal civilization s apocalyptic flight from corporeal biological reality *Man Against Being* charts a return to the flesh and blood of the matter a vital reintegration of body and mind and living earth For the path forward out of male dominion linnea argues is in fact a homecoming to our truest nature *Library Journal Book Review*, 1979 Jaques Cattell

Psychotherapy Charlotte Krause Prozan,1993 This book is on clinical issues in the psychotherapy of women It is the companion volume to Charlotte Prozan s *Feminist Psychoanalytic Psychotherapy* which traces the history of psychoanalytic and feminist understanding of female development and personality and demonstrates that both psychoanalysis and feminism have much to learn from each other Psychotherapists need a thorough understanding of feminist issues in order to help women with today s conflicts and opportunities The feminist movement has brought attention to the many ways that girls and women have been taught to limit their aspirations and have suffered from deprecation and sexual exploitation Not all patients are alike and not all women patients are alike Some must learn to let down barriers and make a connection to the

therapist whereas others need assistance to construct ego boundaries and not merge with the therapist Some need to recognize anger and express it whereas others are filled with undifferentiated rage and need help in clarifying understanding and controlling anger so that it can become a constructive tool rather than a destructive identity Some need to learn to cry and some need to stop crying and make changes Prozan covers all the major clinical issues faced in therapy with women mother daughter relationship the fears of women problems of the new woman eating disorders battered women sexual abuse therapist patient sex lesbianism mid life crises problems of the older woman and the abortion decision With each problem Prozan reviews both psychoanalytic and feminist approaches and illustrates their integration with clinical examples including process recording and verbatim reports of exactly what she says to the patient The feminist view is an additional layer of understanding on a psychodynamic foundation This integration offers the best possible help and hope to the many women who turn to psychotherapy in times of psychological stress
