The Art Of Prehispanic Colombia:

The Art of Prehispanic Colombia Sam Enslow, 1990 **The art of gold, the legacy of Pre-Hispanic Colombia** Juan Mayr, Clara Isabel Botero, Museo del Oro (Banco de la República), 2007 Gold held a deep symbolic meaning for the pre Hispanic cultures of present day Colombia Its color and brilliance made it analogous with the Sun and a powerful symbol of fertility Its physical and chemical properties allowed for the creation of different textures and a variety of color tones that became part of the political and ritual functions of the objects produced They manufactured simple objects used by ordinary members of the community such as nose rings earrings breastplates pendants and tools as well as complex showy objects including body adornments emblems of rank and power and votive figures reserved for important figures such as governors shaman and venerable elders This richly illustrated volume traces the legacy of gold in pre Hispanic Colombia in over 250 exceptional gold objects supplemented by maps diagrams and illustrations that put in context the pieces that make up this extraordinary collection from the Gold Museum of Bogot The exceptional photographs are accompanied by brief descriptions of the cultures that created the objects their customs the territories they occupied the techniques used and the symbolic value assigned to the different pieces *Colombia Before Columbus* Armand J. Labbé, 1986 *The Art of Precolumbian Gold* Jan Mitchell, 1985 Encyclopedia of Prehistory Peter N. Peregrine, Melvin Ember, 2012-12-06 The Encyclopedia of Prehistory represents temporal dimension Major traditions are an attempt to provide basic information also defined by a somewhat different set of on all archaeologically known cultures sociocultural characteristics than are eth covering the entire globe and the entire nological cultures Major traditions are prehistory of humankind It is designed as defined based on common subsistence a tool to assist in doing comparative practices sociopolitical organization and research on the peoples of the past Most material industries but language ideology of the entries are written by the world s and kinship ties play little or no part in foremost experts on the particular areas their definition because they are virtually and time periods unrecoverable from archaeological con The Encyclopedia is organized accord texts In contrast language ideology and ing to major traditions A major tradition kinship ties are central to defining ethno is defined as a group of populations sharing logical cultures similar subsistence practices technology There are three types of entries in the and forms of sociopolitical organization Encyclopedia the major tradition entry which are spatially contiguous over a rela the regional subtradition entry and the tively large area and which endure tempo site entry Each contains different types of rally for a relatively long period Minimal information and each is intended to be areal coverage for a major tradition can be used in a different way Painting the Cosmos Alan Grinnell, 2024-12-01 The result of decades of study Alan Grinnell s *Painting the Cosmos* presents the spectacular and underappreciated art of Panama and its revealing iconography Emphasizing brightly painted polychrome designs with complex iconography on myriad ceramic forms the art of Central Panama ca 200 BCE 1500 CE is highly distinctive compared to other pre Columbian cultures The book illustrates more than eight hundreds vessels in full color many of which will be

unfamiliar even to pre Columbian specialists and proposes interpretations of the iconography informed by the archaeology history and ethnohistory of the region In these animistic cultures much of the iconography reflected interactions of humans with the natural world The author identifies persistent design themes that reflect the myths and beliefs of these ancient peoples Enriched by current scholarship this beautifully produced volume fills a major gap in the knowledge of and appreciation for the art and cultures of the ancient Americas It serves as both an introduction to this unique and relatively unknown culture and a resource for scholars in pre Columbian history art and culture The Jaguar Within Rebecca R. Stone,2012-09-21 An important new way of viewing the prehistoric art of the Americas The Jaguar Within demonstrates that understanding a work of art s connection with shamanic trance can lead to an appreciation of it as an extremely creative solution to the inherent challenge of giving material form to nonmaterial realities and states of being Shamanism the practice of entering a trance state to experience visions of a reality beyond the ordinary and to gain esoteric knowledge has been an important part of life for indigenous societies throughout the Americas from prehistoric times until the present Much has been written about shamanism in both scholarly and popular literature but few authors have linked it to another significant visual realm art In this pioneering study Rebecca R Stone considers how deep familiarity with and profound respect for the extra ordinary visionary experiences of shamanism profoundly affected the artistic output of indigenous cultures in Central and South America before the European invasions of the sixteenth century Using ethnographic accounts of shamanic trance experiences Stone defines a core set of trance vision characteristics including enhanced senses ego dissolution bodily distortions flying spinning and undulating sensations synaesthesia and physical transformation from the human self into animal and other states of being Stone then traces these visionary characteristics in ancient artworks from Costa Rica and Peru She makes a convincing case that these works especially those of the Moche depict shamans in a trance state or else convey the perceptual experience of visions by creating deliberately chaotic and distorted conglomerations of partial inverted and incoherent images Masks and Masking Gary Edson,2015-07-11 For at least 20 000 years masking has been a mark of cultural evolution and an indication of magical religious sophistication in society This book provides a comprehensive understanding of the mask as a powerful cultural phenomenon a means by which human groupings attempted to communicate their dignity and sense of purpose as well as establish a continuum between the natural and supernatural worlds It addresses the distinctive environments within which masks flourished and analyzes the mask as a manifestation of art ethnology and anthropology Colombia Robert Henry Davis,1990 **Colombia** Krzysztof Dydyński,1995 Colombia the country with the best coffee is a gloriously fertile green country with friendly helpful people and a wealth of spectacular sights and many attractions little known so far by foreigners The Caribbean coastline the appeal of Cartagena and its rich colonial history the magnificent gold museum in Bogot and climbing in the Andes are all covered in this new guide *World Museum Publications* ,1982 **Latin American Art** Eugene C. Burt,1991 **The Worldwide Art Catalogue Bulletin**

,1987 Pre-Columbian Art Sotheby's (Firm),1993 **Gender in Pre-Hispanic America** Cecelia F. Klein,2001 Gender in Pre Hispanic America offers rich opportunities for comprehending current trends and considering future directions in research It is unique in that it puts social theory at the forefront of the discussion The book has a special intellectual presence and contemporary relevance in its engagement with the social lives and constructs of its authors and readers alike The consideration of the role of gender in our daily lives including in our professions becomes inescapable when reading this book It is not simply a question of men s roles having been possibly overemphasized and overstudied to the detriment of women s The fact that genders as opposed to sexes are socially constructed categories focuses our attention on the ways in which these and other social constructs have shaped our present understanding of the past and informed past peoples understand of their present In various articles in this book the reader will not find unanimity in what is meant by gender or how to go about studying it What will be found however is a collection of interesting informed thought provoking and often lively essays It is hoped that this volume will mark a stage in an evolving study of this field and provoke new research in the future **The World of Tribal Arts** ,1995 World Museum Publications 1982 ,1982 **Pre-Columbian Contact with the Americas Across the Oceans** John L. Sorenson,Martin Raish,1996 **South American Explorer** ,2007 **A Hispanic Heritage** Isabel Schon,1988
