The ascent of man David Pilbeam,1986 *The Ascent of Man* ,1992 *The Ascent of Man* David R. Pilbeam,1972

Biologische variabiliteit bij de mens. Deel II. Biologische variabiliteit ,2005 **Modern Humans** John F.

Hoffecker,2017-10-31 *Modern Humans* is a vivid account of the most recent and perhaps the most important phase of human evolution the appearance of anatomically modern people *Homo sapiens* in Africa less than half a million years ago and their later spread throughout the world Leaving no stone unturned John F Hoffecker demonstrates that *Homo sapiens* represents a major transition in the evolution of living systems in terms of fundamental changes in the role of non genetic information *Modern Humans* synthesizes recent findings from genetics including the rapidly growing body of ancient DNA the human fossil record and archaeology relating to the African origin and global dispersal of anatomically modern people Hoffecker places humans in the broad context of the evolution of life emphasizing the critical role of genetic and non genetic forms of information in living systems as well as how changes in the storage transmission and translation of information underlie major transitions in evolution He also draws on information and complexity theory to explain the emergence of *Homo sapiens* in Africa several hundred thousand years ago and the rapid and unprecedented spread of our species into a variety of environments in Australia and Eurasia including the Arctic and Beringia beginning between 75 000 and 60 000 years ago

This magisterial work will appeal to all with an interest in the ever fascinating field of human evolution **Introduction to the Primates: Living and Fossil** Stephen I. Bouchard,2021-11-23 The perfect remedy for our culture of fake news bad science and propaganda We have more scientific information at our fingertips today than ever before And more disinformation too Online on television and in print science is often communicated through shorthand analogies and phrases that obscure or omit important facts Superfoods right and left brained people and global warming may be snappy and ear catching but are they backed by scientific facts Lifelong educator R Philip Bouchard is a stickler for this kind of thing and he is well prepared to set the record straight *The Stickler s Guide to Science in the Age of Misinformation* unpacks the many misuses of terms we see used every day revealing how these popular

scientific concepts fall short of real science Find out why trees do not store carbon dioxide a day is not actually 24 hours DNA cannot provide a blueprint for a human being and an absence of gravity is not the reason that astronauts float in space

Journal of Asian Civilisations ,2005 **Cultural Anthropology** Roger M. Keesing,1976 CULTURAL ANTHROPOLOGY A CONTEMPORARY PERSPECTIVE Third Edition is a sophisticated synthesis of social and cultural anthropology Keesing was concerned with the political and ethical implications of anthropological fieldwork and was sensitive to the global conditions of inequality caused by the spread of capitalist relations of production Thus his book is more political than other introductory texts in the field Keesing was also committed to the belief that students should not merely memorize terms and theories but should also be challenged to ponder the deep questions raised by human diversity Roger Keesing s untimely death in 1992 necessitated that a co author execute his planned revision Dr Andrew Strathern was chosen because like Keesing his training is in the British social anthropological tradition his fieldwork has concentrated on the Pacific and his recent teaching experience has acquainted him with American cultural anthropology In this revision Dr Strathern preserved Keesing s vision arguments and the ethnographies presented as illustrations of Keesing s theories while also examining each sentence to determine whether its assertions needed to be updated modified or abandoned Small changes made in this way incorporated a larger aim of updating and recasting the book to better fit and reflect a world 20 years since publication of the first edition **A Topical Guide to the American Journal of Physical Anthropology, Volumes 22-53 (1964-1980)** M.
