Holmes,2016-10-04 Attitudes towards divorce have changed considerably over the past two centuries As society has moved away from a Biblical definition of marriage as an indissoluble union to that of an individual and personal relationship secular laws have evolved as well Using unpublished sources and previously inaccessible private collections Holmes explores the significant role the Church of England has played in these changes as well as the impact this has had on ecclesiastical policies This timely study will be relevant to ongoing debates about the meaning and nature of marriage including the theological doctrines and ecclesiastical policies underlying current debates on same sex marriage **The Cult of the**

Market Lee Boldeman,2007-10-01 The Cult of the Market Economic Fundamentalism and its Discontents disputes the practical value of the shallow all encompassing dogmatic economic fundamentalism espoused by policy elites in recent public policy debates along with their gross simplifications and sacred rules Economics cannot provide a convincing overarching theory of government action or of social action more generally Furthermore mainstream economics fails to get to grips with the economic system as it actually operates It advocates a more overtly experimental eclectic and pragmatic approach to policy development which takes more seriously the complex interdependent evolving nature of society and the economy Importantly it is an outlook that recognises the pervasive influence of asymmetries of wealth power and information on bargaining power and prospects throughout society The book advocates a major reform of the teaching of economics
