Edward John Routh

The Attraction:

Making Leisure Work Brian Lonsway, 2013-09-13 Contemporary architecture of theme based design is examined in this book leading to a new understanding of architecture's role in the increasingly diversified consumer environment. It explores the Experience Economy to reveal how everyday environments strategically and opportunistically blur our leisure work and personal life experiences. Considering scientific design research, consumer psychology and Hollywood story telling techniques, the book looks at how the design of theme parks, casinos and shopping malls has influenced our more unexpectedly themed spaces from the city to the hospital. Widely taking architecture as a social practice, this text is of relevance to all cultural and sociological studies in the built and material environment.
