Britain)**

John Varley British Watercolour Series:

Great British Watercolors Matthew Hargraves, 2007-01-01 Paul Mellon 1907 1999 assembled one of the world's greatest collections of British drawings and watercolors. In his memoirs he wrote of their beauty and freshness, their immediacy and sureness of technique, their comprehensiveness of subject matter, their vital qualities, their Englishness. This catalogue celebrating the centenary of Mellon's birth features eighty-eight outstanding watercolors from the fifty thousand works of art on paper with which he endowed the Yale Center for British Art. The selection spans the emergence of watercolor painting in the mid 18th century to its apogee in the mid 19th. These works highlight the diversity of British watercolors, showcasing both landscape and figurative works by some of the principal artists working in the medium, including Thomas Gainsborough, Thomas Rowlandson, William Blake, and J. M. W. Turner. **A History of Water-colour Painting in England** Gilbert Richard Redgrave, 1892 *The Edinburgh Annual Register, for 1808-26*, 1825 **British Watercolors, 1750-1850** International Exhibitions Foundation, Jonathan Mayne, 1967 British Watercolors: 1750-1950 Katherine Coombs, Victoria and Albert Museum, 2012-10 **British Watercolours** explores the many ways in which British artists have employed this versatile medium. **Painting Expressive Watercolours** Mike Chaplin, 2014-07-10 Mike Chaplin is one of the most popular art experts on the very successful Channel 4 series *Watercolour Challenge*. In this book he reveals how he works and puts forward his ideas and teaching methods, offering plenty of tips and practical advice for the amateur artist.

American Drawings and Watercolors in the Metropolitan Museum of Art Kevin J. Avery, Metropolitan Museum of Art (New York, N.Y.), 2002. The Metropolitan Museum began acquiring American drawings and watercolors in 1880, just ten years after its founding. Since then it has amassed more than 1,500 works executed by American artists during the eighteenth and nineteenth centuries in watercolor, pastel, chalk, ink, graphite, gouache, and charcoal. This volume documents the draftsmanship of more than 150 known artists before 1835 and that of about 60 unidentified artists of the period. It includes drawings and watercolors by such American masters as John Singleton Copley, John Trumbull, John Vanderlyn, Thomas Cole, Asher Brown Durand, George Inness, and James Abbott McNeill Whistler. Because the 504 works illustrate such a wide range of media, techniques, and styles, this publication is a veritable history of American drawing from the eighteenth through most of the nineteenth century.
