The Informant:

The Process of Investigation Charles A. Sennewald, John Tsukayama, 2014-12-30 The Process of Investigation Fourth Edition addresses the needs of today's private sector investigative professional by providing a full spectrum treatment of the investigative process from case inception and investigative strategy selection to executing complex investigative techniques to creating reports useful for corporate legal and prosecutorial purposes. Continuing in the tradition of its previous editions, The Process of Investigation Fourth Edition covers essential topics overlooked in books on the public aspects of investigation. Investigative skills such as surveillance techniques, interviewing and interrogation, collecting and documenting evidence, and taking confessions and written statements are all discussed and supplemented with updated case studies and examples from the authors' own professional experiences. Teaches the fundamentals of the investigative process and serves as a valuable reference tool for both the student and the professional. Experienced professionals can brush up on seldom used specialty skills and reconsider existing methods and approaches. Includes a new chapter on discrimination investigations.
