The Intellectual In Politics:

The Intellectual in Politics Max Beloff Baron Beloff, 1970-01-01 *Intellectual Politics and Cultural Conflict in the Romantic Period* Alex Benchimol, 2016-05-23 *Intellectual Politics and Cultural Conflict in the Romantic Period* maps the intellectual formation of English plebeian radicalism and Scottish philosophic Whiggism over the long eighteenth century and examines their associated strategies of critical engagement with the cultural social and political crises of the early nineteenth century. It is a story of the making of a wider British public sphere out of the agendas and discourses of the radical and liberal publics that both shaped and responded to them. When juxtaposed these competing intellectual formations illustrate two important expressions of cultural politics in the Romantic period as well as the peculiar overlapping of national cultural histories that contributed to the ideological conflict over the public meaning of Britain's industrial modernity. Alex Benchimol's study provides an original contribution to recent scholarship in Romantic period studies centred around the public sphere, recovering the contemporary debates and national cultural histories that together made up a significant part of the ideological landscape of the British public sphere in the early nineteenth century.

Symbolic Power, Politics, and Intellectuals David L. Swartz, 2013-04-12 Power is the central organizing principle of all social life from culture and education to stratification and taste. And there is no more prominent name in the analysis of power than that of noted sociologist Pierre Bourdieu. Throughout his career Bourdieu challenged the commonly held view that symbolic power, the power to dominate, is solely symbolic. He emphasized that symbolic power helps create and maintain social hierarchies which form the very bedrock of political life. By the time of his death in 2002 Bourdieu had become a leading public intellectual and his argument about the more subtle and influential ways that cultural resources and symbolic categories prevail in power arrangements and practices had gained broad recognition. In *Symbolic Power, Politics, and Intellectuals* David L. Swartz delves deeply into Bourdieu's work to show how central but often overlooked power and politics are to an understanding of sociology. Arguing that power and politics stand at the core of Bourdieu's sociology, Swartz illuminates Bourdieu's political project for the social sciences as well as Bourdieu's own political activism, explaining how sociology is not just science but also a crucial form of political engagement.

The Intellectual in Politics H. Malcolm Macdonald, 1966 **Randolph Bourne and the Politics of Cultural Radicalism** Leslie J. Vaughan, 1997 Reassesses the short life and career of American essayist, critic, and founder of cultural radicalism, Bourne (1886-1918), known today mostly for his opposition to US military involvement in Europe and warnings about the military industrial complex. Vaughan, political science U of Minnesota Duluth, argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change. The Intellectual Temptation Frits Bolkestein, 2013-03-29 an absorbing and beautifully written study that deserves a very wide audience. Joshua Muravchik, an erudite account of where the vision of

individual liberty comes from why some ideologues set themselves against it and how our contemporaries have ceased to treasure it Christopher Caldwell Bolkestein exposes today's fashionable yet dangerous ideas doing a great service not only to Europe but indeed to the whole of Western civilization Ayaan Hirsi Ali The dangers of intellectuals and their ideas in politics have rarely been written about by politicians themselves This is not surprising for few politicians are up to the task However Frits Bolkestein is a notable exception bringing rare if not unique qualifications to this examination Not only has he held national and international office in Europe but he has also studied, read, taught and published broadly The thesis of *The Intellectual Temptation* is simple but penetrating intellectuals' ideas are problematic as political ideas because they are often neither derived from nor falsifiable by experience These ideas are frequently dreams attempting to become reality through power politics There is also a cultural problem Intellectuals are pack animals looking to one another for approval This affects the quality of their ideas as they are susceptible to fashionable ideology and group pressure frequently attracted to ideas that are appealing rather than sound Very few of them are brave enough to stand against the prevailing orthodoxy Beginning with a history of ideology Bolkestein traces a nearly 300 year trend of bad ideas making worse politics sometimes disastrously so From his own experience he offers a vision of a politics of prudence proper pragmatism and Classicism as a way out of the intellectual temptation that we have fallen under

Edward Said about the Responsibility of the Intellectual Jaydeep Chakrabarty, 2015-05-28 Essay from the year 2015 in the subject American Studies Language English abstract It is commonly observed that the intellectuals are increasingly withdrawing themselves from the world and retiring into the insular cells of academic exercise But Edward Said feels that as intellectuals are the best brains of society they should have a genuine interest in the order of things in society and the world This article examines Said's arguments and stakes about the role and responsibility of the intellectual The present paper seeks to engage with certain crucial aspects of the Saidian formulations of and about the intellectuals As an Arab Palestinian working as a professor of literature in an elite American institution Said was fighting injustice and discrimination at all levels all through This struggle against his overarching surroundings of power and politics also gets reflected in his deliberations on the role of the intellectuals in an increasingly globalized and conformist world
