The Indochina War:

Vietnam and the Indochina Conflict John Wood, 1997 Study of the thirty years of conflict in Indochina from 1945-1975. It relates to the Form 6 Year 12 history syllabus theme of Imperialism indigenous peoples and the emergence of new nations. Pref Suggested level senior secondary. [The Second Indochina War](#) William S. Turley, 2008-10-17. Now in a thoroughly revised and updated edition, this classic history of the Vietnam War as seen by all participants takes into account the wealth of research and writing on the war since the book's original publication more than two decades ago. Leading scholar William S. Turley combines original research, thorough knowledge of the literature, his own insight from many trips to Vietnam during and since the war, and sound interpretation into a succinct and well-crafted analysis that provides a balanced treatment of the Vietnamese, Lao, Khmer, and American dimensions of the war. [The End of the First Indochina War](#) James Waite, 2012. The French withdrawal from Vietnam in 1954 was the product of global pressures and triggered significant global consequences. By treating the war as an international issue, this book places Indochina at the center of the Cold War in the mid-1950s. Arguing that the Indochina War cannot be understood as a topic of Franco-US relations but ought to be treated as international history, this volume brings in Vietnamese and other global agents including New Zealand, Australia, and especially Britain, as well as China and the Soviet Union. Importantly, the book also argues that the successful French withdrawal from Vietnam, a political defeat for the Eisenhower administration, helped to avert outright warfare between the major powers, although with very mixed results for the inhabitants of Vietnam who faced partition and further bloodshed. [The End of the First Indochina War](#) explores the complexities of intra-alliance competition over global strategy, especially between the United States and British Commonwealth, arguing that these rivalries are as important to understanding the Cold War as east-west confrontation. This is the first truly global interpretation of the French defeat in 1954, based on the author's research in five western countries and the latest scholarship from historians of Vietnam, China, and Russia. Readers will find much that is new, both in terms of archival revelations and original interpretations. [Vietnam War: The Second Indochina War](#) The History Hour, 2018-10-03. Download for FREE on Kindle Unlimited. Free Bonus: Inside Read on your Computer, Mac, Smartphone, Kindle Reader, iPad, or Tablet. The Vietnam War was a battle fought between democracy and totalitarianism. It was idealistic rather than reality-based. Perhaps it was intended to help South Vietnam, which desired freedom, achieve it. Even though the Allied forces won all the major battles, they lost the war. One of the reasons may have been that the Vietnam War never seemed to end. Another reason may have been that the motives were lost somewhere among the 58,000 flag-draped coffins that came home. Inside, you'll read about The Overlords, Vietnam War Part One, Vietnam War Part Two, Shuttling between Peace and War, Panic, Lies, Desperation, and Death, and much more. It was the second of the Indochina Wars and was officially fought between North Vietnam and the government of South Vietnam. The North Vietnamese army was supported by the Soviet Union, China, and other communist allies; the South Vietnamese army was supported by the United

States South Korea Australia Thailand and other anti communist allies **The Road to Dien Bien Phu** Christopher Goscha,2022-03-29 A multifaceted history of Ho Chi Minh s climactic victory over French colonial might that foreshadowed America s experience in Vietnam On May 7 1954 when the bullets stopped and the air stilled in Dien Bien Phu there was no doubt that Vietnam could fight a mighty colonial power and win After nearly a decade of struggle a nation forged in the crucible of war had achieved a victory undreamed of by any other national liberation movement The Road to Dien Bien Phu tells the story of how Ho Chi Minh turned a ragtag guerrilla army into a modern fighting force capable of bringing down the formidable French army Taking readers from the outbreak of fighting in 1945 to the epic battle at Dien Bien Phu Christopher Goscha shows how Ho transformed Vietnam from a decentralized guerrilla state based in the countryside to a single party communist state shaped by a specific form of War Communism Goscha discusses how the Vietnamese operated both states through economics trade policing information gathering and communications technology He challenges the wisdom of counterinsurgency methods developed by the French and still used by the Americans today and explains why the First Indochina War was arguably the most brutal war of decolonization in the twentieth century killing a million Vietnamese most of them civilians Panoramic in scope The Road to Dien Bien Phu transforms our understanding of this conflict and the one the United States would later enter and sheds new light on communist warfare and statecraft in East Asia today *Historical Dictionary of the Indochina War (1945-1954)* Christopher E. Goscha,2015-09 This first historical dictionary in English of the Indochina War provides the most comprehensive account to date of one of the most important conflicts of the twentieth century Over 1 600 entries offer in depth expert coverage of the war in all its dimensions Christopher Goscha adopts a path breaking dual international and interdisciplinary approach Thus readers will not only find information on politics and military campaigns they will also discover the remarkable impact this war had on intellectual social cultural economic and artistic domains in France Indochina and elsewhere Indeed rather than limiting the dictionary to the French and their Vietnamese adversaries Goscha explores the internationalization of this conflict from its beginning in September 1945 at Ba Dinh square in Hanoi to its end around the Cold War conference table in Geneva in July 1954 also making it clear that a myriad of non communist Vietnamese Lao and Cambodian nationalists were deeply involved in this war and its outcome In addition to its 1 600 entries the dictionary contains a succinct historical introduction selected bibliography maps illustrations and tables A massive work of outstanding scholarly quality and lasting value this is a reference tool that will be invaluable for researchers students and anyone else hoping to understand the complexity of this tragic conflict *Contesting Indochina* M. Kathryn Edwards,2016-06-14 How does a nation come to terms with losing a war especially an overseas war whose purpose is fervently contested In the years after the war how does such a nation construct and reconstruct its identity and values For the French in Indochina the stunning defeat at Dien Bien Phu ushered in the violent process of decolonization and a fraught reckoning with a colonial past Contesting Indochina is the first in depth study of the competing and intertwined narratives of

the Indochina War It analyzes the layers of French remembrance focusing on state sponsored commemoration veterans associations special interest groups intellectuals films and heated public disputes These narratives constitute the ideological battleground for contesting the legacies of colonialism decolonization the Cold War and France s changing global status

The Twenty-five Year Century Quang Thi Lâm,2001 For Victor Hugo the nineteenth century could be remembered by only its first two years which established peace in Europe and France s supremacy on the continent For General Lam Quang Thi the twentieth century had only twenty five years from 1950 to 1975 during which the Republic of Vietnam and its Army grew up and collapsed with the fall of Saigon This is the story of those twenty five years General Thi fought in the Indochina War as a battery commander on the side of the French When Viet Minh aggression began after the Geneva Accords he served in the nascent Vietnamese National Army and his career covers this army s entire lifespan He was deputy commander of the 7th Infantry Division and in 1965 he assumed command of the 9th Infantry Division In 1966 at the age of thirty three he became one of the youngest generals in the Vietnamese Army He participated in the Tet Offensive before being removed from the front lines for political reasons When North Vietnam launched the 1972 Great Offensive he was brought back to the field and eventually promoted to commander of an Army Corps Task Force along the Demilitarized Zone With the fall of Saigon he left Vietnam and emigrated to the United States Like his tactics during battle General Thi pulls no punches in his denunciation of the various regimes of the Republic and complacency and arrogance toward Vietnam in the policies of both France and the United States Without lapsing into bitterness this is finally a tribute to the soldiers who fell on behalf of a good cause

France's War in Indochina: Volume 1: The Tiger Versus the Elephant, 1946-1949 Stephen Rookes,2022-11 This first volume of a three part series on the First Indochina War centers on the period between 1946 1949 A time when tensions between East and West were on the rise the Indochina War was a colonial conflict that laid the foundations for America s war in Vietnam [Historical Dictionary of the Indochina War \(1945-1954\)](#) Christopher E.

Goscha,2011 **Vietnam in Military Statistics** Micheal Clodfelter,1995 From the Tay Son Rebellion in 1772 through the Sino Vietnamese War of 1979 a complete history of the Indochina Wars is herein presented Part One examines the wars of conquest and colonialism e g the Tonkin War and the Vietnamese resistance against the French Part Two concentrates on the Vietnam War from 1957 through 1975 that involved mostly the United States In Part Three the other Indochina Wars in Laos Cambodia and Thailand are covered The focus is on statistical analyses of each conflict particularly on unit strengths and casualties presented in a narrative form [Battle Of Dien Bien Phu, 1954, In The Indochina War](#) André Geraque

Kiffer,2024-10-09 The Battle of Dien Bien Phu in the Indochina War took place between French Union troops and Viet Minh forces between March 13 and May 7 1954 Originally Dien Bien Phu was to be a base for mobile units capable of deploying throughout the Lai Chau district with American M24 Chaffee light tanks from the Northwest Operational Group In the simulation through the Legion Wargames game Dien Bien Phu for the Vietnamese player I will apply the hypothesis of an

operational strategy that prioritizes the teachings bequeathed by military engineer Vauban 1633 to 1707 For the French player I will apply two hypotheses adapting them to the context one at the strategic level namely the green light for the North American Operation Vulture and one in the field of tactics those practiced by the Americans in the Battle of Khe Sanh in 1968 in the Vietnam War America and the Indochina Wars, 1945-1990 Lester H. Brune, Richard Dean Burns, 1992

Ho Chi Minh and the Indochina War Axel Silverstone, Ho Chi Minh was one of the central characters of the twentieth century Everyone remembers him for leading North Vietnam together with General Giap in the incredible military victory against the United States but his story began long before that dirty war Ho Chi Minh unlike many revolutionary leaders of the time such as Mao himself wrote and spoke various foreign languages such as French English Russian German and Chinese He had been a worker a sailor a pastry chef assistant to the internationally renowned cook Escoffier in the luxurious London hotel Carlton the Buddhist monk in Siam He had traveled through China disguising himself as a blind peasant then finding work in Manchuria invaded by Japan as a French journalist But above all he had been the man capable of breaking French colonial chains over Indochina by forever changing the face of South East Asia The life of Ho Chi Minh is the fascinating tale of the man who was able to create modern Vietnam without stopping in front of anyone a skilled and ruthless politician who left an indelible mark on history *The French Indochina War 1946-54* Martin Windrow, 2013-06-20 The states of Indochina had been French colonies or protectorates since the 19th century However in March 1945 the Japanese interned all French troops and officials and turned over all civil government to local authorities The power vacuum caused by the Japanese surrender allowed the Viet Minh a strong revolutionary organisation to be established throughout Vietnam When the French returned to the north incidents between French and VM troops were inevitable negotiations collapsed and the French opted for a military solution This book examines the history of the conflict and the forces of both sides

Chinese Military Strategy in the Third Indochina War Edward C. O'Dowd, 2007-04-16 This well researched volume examines the Sino Vietnamese hostilities of the late 1970s and 1980s attempting to understand them as strategic operational and tactical events The Sino Vietnamese War was the third Indochina war and contemporary Southeast Asia cannot be properly understood unless we acknowledge that the Vietnamese fought three not two wars to establish their current role in the region The war was not about the Sino Vietnamese border as frequently claimed but about China's support for its Cambodian ally the Khmer Rouge and the book addresses US and ASEAN involvement in the effort to support the regime Although the Chinese completed their troop withdrawal in March 1979 they retained their strategic goal of driving Vietnam out of Cambodia at least until 1988 but it was evident by 1984-85 that the PLA held back by the drag of its Maoist organization doctrine equipment and personnel was not an effective instrument of coercion Chinese Military Strategy in the Third Indochina War will be of great interest to all students of the Third Indochina War Asian political history Chinese security and strategic studies in general **The Third Indochina War** Cheng Guan Ang, 2024-11-21 The Third Indochina

War comprised of the Vietnam Kampuchea War from 1978 to 1990 and the brief Sino Vietnamese War in February 1979 has received far less scholarly attention than the earlier two Indochina Wars Ang Cheng Guan utilises a wide range of archival and secondary material including Vietnamese Cambodian Chinese Soviet American British Australian and ASEAN sources to provide a comprehensive new analysis of the conflict By carefully reconstructing its chronology Ang traces the life cycle of the war from its origins through the conduct of military engagements to its eventual resolution He focuses on multiple actors simultaneously highlighting the inter connected perspectives of the war s major protagonists Vietnam Cambodia and China In demonstrating the roles of the USSR the US and ASEAN in both prolonging and ending the conflict he situates the Third Indochina War fully in its Asian global and Cold War contexts **In the Year of the Tiger** William M. Waddell,2018-08-09

In 1950 France experienced two parallel but different outcomes in its Indochina war While the conflict in the north ended with a disastrous defeat for the French at Dien Bien Phu in southern Vietnam or Cochinchina France emerged victorious in a series of violent but now largely forgotten actions In the Year of the Tiger tells the story of this critical southern campaign revealing in dramatic detail how the French war for Cochinchina set the stage for the American war in Vietnam In northern Vietnam the French troops had focused on destroying Viet Minh main force units A dearth of resources in the south dictated a different strategy William M Waddell III describes how by avoiding costly attempts to defeat the Viet Minh in the traditional military sense the southern French command was able to secure key economic and political strongholds Consulting both French and Vietnamese sources Waddell examines the principal commanders on both sides their competing strategies and the hard fought military campaign that they waged for control of the south The author s deft analysis suggests that counter to widely accepted views the Viet Minh were not invincible and the outcome of the conflict in Indochina was not inevitable A challenge to historical orthodoxy In the Year of the Tiger presents a more balanced interpretation of the French war for Indochina At the same time the book alters and expands our understanding of the precedents and the dynamics of America s Vietnam War **The Vietnam War** Creighton Abrams,John Fitzmorris,2019-10-19 A concise history of the Vietnam War explaining the conflict itself and examining experiences of combatants **Four Decades On** Scott Laderman,Edwin A. Martini,2013-06-06

In Four Decades On historians anthropologists and literary critics examine the legacies of the Second Indochina War or what most Americans call the Vietnam War nearly forty years after the United States finally left Vietnam They address matters such as the daunting tasks facing the Vietnamese at the war s end including rebuilding a nation and consolidating a socialist revolution while fending off China and the Khmer Rouge and the Vietnam syndrome the cynical frustrated and pessimistic sense that colored America s views of the rest of the world after its humiliating defeat in Vietnam The contributors provide unexpected perspectives on Agent Orange the POW MIA controversies the commercial trade relationship between the United States and Vietnam and representations of the war and its aftermath produced by artists particularly writers They show how the war has continued to affect not only international relations but also the everyday lives

of millions of people around the world. Most of the contributors take up matters in the United States, Vietnam, or both nations, while several utilize transnational analytic frameworks recognizing that the war's legacies shape and are shaped by dynamics that transcend the two countries.
