**The Inner Life of Objects** Maxine Gauthier Combs, 2000 A look at the search for meaning and the bizarre ways in which lives and objects are interconnected *The Inner Life* Hazrat Inayat Khan, 1997-02-11 The Indian Sufi master Hazrat Inayat Khan 1882 1927 was the first teacher to bring Sufism Islamic mysticism to the Western world His teaching was noted for its stirring beauty and power as well as for its applicability to all people regardless of religious or philosophical background This book gathers together three of Inayat Khan s most beloved essays on the spiritual life from among the fourteen volumes of his collected works *The Inner Life* Inayat Kahn s sublime portrait of the person whose life is a radiant reflection of the Divine Sufi Mysticism in which the author identifies and shatters the common misconceptions about mysticism to reveal its true meaning *The Path of Initiation and Discipleship* What it means to set out on the spiritual path and how to find and maintain the right relationship with a teacher *The Inner Life* Charles Webster Leadbeater, 1911 Hardcover Imitation leather Color Dust Jacket Printed on Acid Free paper

*Handbook of Phenomenological Aesthetics* Hans Rainer Sepp, Lester Embree, 2010-03-11 Historically phenomenology began in Edmund Husserl s theory of mathematics and logic went on to focus for him on transcendental rst philosophy and for others on metaphysics philosophical anthropology and theory of interpretation The c tinuing focus has thus been on knowledge and being But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural eld to be approached phenomenologically Contributions to this eld have continually been made in the phenomenological tradition from very early on but so to speak along the side The situation has been similar with phenomenological ethics A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue The project of this handbook began in conversations over dinner in Sepp s apa ment in Baden Baden at one evening of the hot European summer in the year 2003 As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors s control **Hymns of the inner life of the Christian; or, Spiritual songs [by E. Culver,1873      **The Expressive Body in Life, Art, and Therapy** Daria Halprin,2003 Drawing on her extensive experience in expressive arts therapy Daria Halprin presents a unique approach to healing through movement and art She describes the body as the container of one's entire life experience and movement as a language that expresses and reveals our deepest struggles and creative potentials Interweaving artistic and psychological processes she offers a philosophy and methodology that invites the reader to consider the transformational capacity of the arts In this essential resource for anyone interested in the integration of psychotherapy and the arts Halprin also presents case studies and a selection of exercises that she has evolved over her career and practised at the Tamalpa Institute for over twenty five years      *Proceedings of the International Congress of Education of the World's Columbian Exposition, Chicago, July 25-28, 1893* International Congress of Education,1895      *Francis of Assisi as Artist of the Spiritual Life* Andrew T. McCarthy,2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant's world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination      *Art - Ethics - Education* ,2020-08-03 This book can be viewed as a series of investigations into the ongoing imbrications of the practices of art ethics and education as conducted within each author's specific context of practice as artist educator researcher It constitutes an international anthology of explorations that are by no means exclusive but conscious of the ongoing iterations mutations and individuations of relations between art ethics and education which in turn seek to expand how we might conceive these terms as practices This ongoing evolution reminds us that as practices art ethics and education are always incomplete processes affected by and affecting their specific milieus and environments Chapters within the book cover a wide range of ethical questions and educational contexts broaching subjects as varied as higher education artificial intelligence animal ethics transcultural encounters collaborative art the education of senior citizens and experiences of conflict Art ethics and education are not conceived in terms of established orders representations ideals criteria or bodies of knowledge and practice but rather in terms of dynamic relational processes and their potentialities that arise within specific locations cartographies and ecologies of practice The notions of art ethics and education are viewed in terms of assemblages that have the capacity to generate new modes of practice that may question established values and advance new overlappings of aesthetic ethical and political relations Contributors are Dennis Atkinson
