volume brings together for the first time some of the world s leading authorities on the German mystic Jacob Boehme to illuminate his thought and its reception over four centuries for the benefit of students and advanced scholars alike Boehme s theosophical works have influenced Western culture in profound ways since their dissemination in the early 17th Century and these interdisciplinary essays trace the social and cultural networks as well as the intellectual pathways involved in Boehme s enduring impact The chapters range from situating Boehme in the 16th Century Radical Reformation to discussions of his significance in modern theology They explore the major contexts for Boehme s reception including the Pietist movement Russian religious thought and Western esotericism as well as focusing more closely on important readers the religious radicals of the English Civil Wars and the later English Behmenists literary figures such as Goethe and Blake and great philosophers of the modern age among them Schelling and Hegel Together the chapters illustrate the depth and variety of Boehme s influence and a concluding chapter addresses directly an underlying theme of the volume asking why

Clack,2000-08-30 From the Middle Ages to the close of the 17th century alchemy was fundamental to Western culture as scores of experimenters sought to change lead into gold Though its significance declined with the rise of chemistry alchemy continued to captivate the imagination of writers and its images still appear in modern creative works This book examines the literary representation of alchemical theory and the metaphor of alchemical regeneration in the

works of Edward Taylor Edgar Allan Poe Nathaniel Hawthorne and Margaret Fuller While Taylor used alchemical metaphors to illustrate the redeeming grace of God upon the soul these same metaphors were used by Poe Hawthorne and Fuller to depict a broader concept of redemption These later writers used alchemical imagery to describe both the regeneration of the individual and the possible transformation of society For Poe alchemy became a metaphor for the transforming power of imagination for Hawthorne it became a means of representing the redeeming power of love for Fuller it figured the reconciliation of gender opposites Thus these four American writers incorporated the idea of regeneration in their works and the tropes and metaphors of the medieval alchemists provided a fascinating way of imagining the transformative process
