The Diamonds:

The Diamonds of Marange , *The Diamond Setting Manual of Procedures & Techniques* Robert R Wooding, 2002-01-01
This manual was designed as a reference source for common diamond setting procedures. The text is divided into seventeen units of instruction based on a series of actual professional case studies. Each unit includes discussions and illustrations that describe how to set diamonds into a particular type of mounting. They are presented in a step by step sequence of events as recorded during the time of setting. Optional techniques are suggested throughout the manual for a variety of circumstances. The manual provides steps in setting the following common stone shapes often seen in the industry: round, oval, pear, marquise, heart, triangular, square, emerald and baguette. Additional setting topics include Pin Point Illusion, Miracle Channel Bezel, Gypsy Jewel Bar Tip Bead and Fishtail settings.

The Law Reports of the Special Court for Sierra Leone Charles Chernor Jalloh, Simon Meisenberg, 2016-03-11
The Special Court for Sierra Leone was established through signature of a bilateral treaty between the United Nations and the Government of Sierra Leone in early 2002, making it the third modern ad hoc international criminal tribunal. The tribunal has tried various persons including former Liberian President Charles Ghankay Taylor for allegedly bearing greatest responsibility for serious violations of international humanitarian law committed during the latter half of the Sierra Leonean armed conflict. It completed its work in December 2013. A new Residual Special Court for Sierra Leone based in Freetown and with offices in The Hague has been created to carry out its essential residual functions. This volume, which consists of three books and a CD ROM and is edited by two legal experts on the Sierra Leone court, presents for the first time in a single place a comprehensive collection of all the interlocutory decisions and final trial and appeals judgments issued by the court in the case *Prosecutor v Charles Ghankay Taylor*. The Taylor case is the jewel in the crown of the SCSL as it was the first ever trial and conviction of a former African head of state for crimes committed in a neighboring state. It is also one of a handful of such significant cases in international criminal law. The Taylor Law Report contains the full text of all substantive judicial decisions including the majority, separate and concurring as well as dissenting opinions and probably the longest trial judgment ever issued by an international criminal court. It additionally provides relevant information for a better understanding of the case such as the indictments, a list of admitted exhibits and a list of documents on the case file. This book set, which is the third in a series of edited law reports that follows volume 1 on *Prosecutor v Brima Kamara and Kanu* (the so called AFRC case) published in November 2012 and volume 2 *Prosecutor v Norman Fofana and Kondewa* (the CDF case) published in March 2014, seeks to capture the entire jurisprudential legacy of the tribunal, fill the gap for a single and authoritative reference source of the tribunal's jurisprudence. These law reports, the last volumes of which will be published in 2015 and 2016, are intended for national and international judges, lawyers, academics, students and other researchers as well as transitional justice practitioners in courts, tribunals and truth commissions as well as anyone seeking an accurate record of the trials conducted by the Special Court for Sierra Leone.
