Examination Thesis from the year 2022 in the subject Didactics for the subject English Literature Works grade 10 LMU Munich English Studies language English abstract: A concise overview of the theoretical context of Shakespeare in film genre theory, drama and film analysis sets the stage for this paper on the use of Shakespeare adaptations in the modern classroom. Central to this work is the analysis of *Much Ado About Nothing* together with Branagh's 1993 film version of the play and *Macbeth* and its latest adaptation by Joel Coen, as well as methodical and didactic considerations for the use of both play and film in the classroom. imagining Shakespeare's plays in modern popular culture how the themes are reflected in the film and how the specifics of each play come together on the screen Finally each chapter will end on methodological and pedagogical implications of using these works for learning and teaching purposes The didactic perspective will be further discussed in the last chapter *Teaching Shakespeare* which offers an overview of important principles of teaching the bard and his work discusses different approaches and includes an exemplary lesson plan for a teaching unit to demonstrate how the theoretical and didactic considerations can play together in the practical application *Teaching in Secondary Schools* Mark D.
