This edition has been fully restored with modern typesetting custom cover design Carl Van Vechten's iconic 1923 novel *The Blind Bow Boy* transports readers to the feverish incandescent heart of Jazz Age New York a city electric with social rebellion and shifting mores. Here against this decadent backdrop the novel unravels the intricate and often baffling conventions of man-woman relationships. The title itself a sly allusion to a sightless Cupid announces the book's purpose a biting satirical examination of romance where passion and propriety collide in the most amusing and poignant ways. Van Vechten's unflinching exploration of desire and the performance of identity poses provocative questions about the search for connection that resonate with startling clarity a century later. For lovers of acerbic wit and historical fiction that feels audaciously modern *The Blind Bow Boy* is more than a novel it is an essential wickedly perceptive tour of the timeless comedy and confusion of the human heart

The Tow-headed Blind Boy Samuel Hoffenstein,1923 *The Plays of William Shakespeare* William Shakespeare,1809 **Decadence in the Age of Modernism** Kate Hext,Alex Murray,2019-07-16 The first holistic reappraisal of the significance of the decadent movement from the 1900s through the 1930s. *Decadence in the Age of Modernism* begins where the history of the decadent movement all too often ends in 1895. It argues that the decadent principles and aesthetics of Oscar Wilde, Walter Pater, Algernon Swinburne and others continued to exert a compelling legacy on the next generation of writers from high modernists and late decadents to writers of the Harlem Renaissance. Writers associated with this decadent counterculture were consciously celebrated but more often blushingly denied even as they exerted a compelling influence on the early twentieth century. Offering a multifaceted critical revision of how modernism evolved out of and coexisted with the decadent movement the essays in this collection reveal how decadent principles infused twentieth century prose, poetry, drama and newspapers. In particular this book demonstrates the potent impact of decadence on the evolution of queer identity and self-fashioning in the early twentieth century. In close readings of an eclectic range of works by Virginia Woolf, James Joyce and D H Lawrence to Ronald Firbank, Bruce Nugent and Carl Van Vechten these essays grapple with a range of related issues including individualism, the end of Empire, the politics of camp, experimentalism and the critique of modernity.
