Speaking For Nature:

Speaking of Nature Bill Danielson, 2001-11 *The Good-natured Feminist* Catriona Sandilands, 1999 Annotation Heroic mothers defending home and hearth against a nature deformed by multinationalist corporate practice this may be a compelling story but it is not necessarily the source of valid feminist or ecological critique What's missing is the democratic element an insistence on bringing to public debate all the relations of gender and nature that such a view takes for granted This book aims to situate a commitment to theory and politics that is to democratic practice at the center of ecofeminism and thus to move toward an ecofeminism that is truly both feminist and ecological The Good Natured Feminist inaugurates a sustained conversation between ecofeminism and recent writings in feminist postmodernism and radical democracy Starting with the assumption that ecofeminism is a body of democratic theory the book tells how the movement originated in debates about nature in North American radical feminisms how it then became entangled with identity politics and how it now seeks to include nature in democratic conversation and especially to politicize relations between gender and nature in both theoretical and activist milieus **Oral Communication** Dr. Jaime Gutierrez-Ang, 2009 **The Philosophy of**

to the Present Gabriele Dürbeck, Christine Kanz, 2024-05-11 This volume examines the topic of German language nature writing in a broad historical context spanning more than two centuries It brings together contributions on the debates of the category Nature Writing by numerous renowned international scholars It discusses literary texts of natural history nature exploration nature poetry perception and reflection by German speaking authors since the 18th century including texts by Ulrike Draesner and on Esther Kinsky's writing The book asks whether the here discussed texts can should or may also be labeled as Nature Writing and how this new perspective on German literary history might change traditional classifications such as Naturlyrik nature poetry in German literary history *Works* Thomas Carlyle, 1885 **American Impersonal:**

Essays with Sharon Cameron Branka Arsic, 2014-02-27 *American Impersonal* brings together some of the most influential scholars now working in American literature to explore the impact of one of America's leading literary critics Sharon Cameron It engages directly with certain arguments that Cameron has articulated throughout her career most notably her late work on the question of impersonality In doing so it provides responses to questions fundamental to literary criticism such as the nature of personhood the logic of subjectivity in depersonalized communities the question of the human within the problematic of the impersonal how impersonality relates to the posthuman Additionally some essays respond to the current aesthetic turn in literary scholarship and engage with the lyric currently much debated as well as the larger questions of poetics and the logic of genre These crucial issues are addressed from the perspective of an American literary and philosophical tradition and progress chronologically starting from Melville and Emerson and moving via Dickinson

Thoreau and Hawthorne to Henry James and Wallace Stevens This historical perspective adds the appeal of revisiting the American nineteenth century literary and philosophical tradition and even rewriting it *Every Other Saturday* ,1884
