Language Machines Leif Weatherby,2025-06-24 How generative AI systems capture a core function of language

Looking at the emergence of generative AI Language Machines presents a new theory of meaning in language and computation arguing that humanistic scholarship misconstrues how large language models LLMs function Seeing LLMs as a convergence of computation and language Leif Weatherby contends that AI does not simulate cognition as widely believed but rather creates culture This evolution in language he finds is one that we are ill prepared to evaluate as what he terms remainder humanism counterproductively divides the human from the machine without drawing on established theories of representation that include both To determine the consequences of using AI for language generation Weatherby reads linguistic theory in conjunction with the algorithmic architecture of LLMs He finds that generative AI captures the ways in which language is at first complex cultural and poetic and only later referential functional and cognitive This process is the semiotic hinge on which an emergent AI culture depends Weatherby calls for a general poetics of computational cultural forms under the formal conditions of the algorithmic reproducibility of language Locating the output of LLMs on a spectrum from poetry to ideology Language Machines concludes that literary theory must be the backbone of a new rhetorical training for our linguistic computational culture **Alden's Manifold Cyclopedia of Knowledge and Language** ,1892 The Social Semiotics of Mass Communication Klaus Bruhn Jensen,1995-07-11 This text offers a framework for understanding the key role of the mass media in the social production of meaning It draws on classic positions on the relations between communications and society and on recent work in both social sciences and humanities **Semiotics of Language, Literature, and Cinema** Harish Narang,1990 Contributed articles festschrift for Harjeet Singh Gill b 1935 on his nomination as Professor Emeritus Jawaharlal Nehru University
