

Protecting Children from Predictable Crises

Reducing the impacts of predictable crises on children is everyone's business. By planning in advance and acting early, we can protect children's rights to survive, learn and be protected as well as the right to participate in decisions that impact them.

A Child-Centered Approach to Anticipatory Action

In parts of the world most vulnerable to predictable and recurrent crises, children can make up nearly 50% of the population. Children experience disaster differently to adults and have valuable experience and insight into the risks they face. Children also have an important role in supporting and sustaining community level action around disaster risk. Yet, Disaster Risk Management approaches are rarely designed with children at the forefront.

Child centered anticipatory action means ensuring that children's voices are at the heart of every decision and also including children in the decisions and plans that impact them. By engaging children, we can identify the hazards most likely to affect their lives and collaborate on effective ways to address these risks. This not only prepares children for current and future challenges but also strengthens the resilience of entire communities.

Principles for Anticipatory Action

- 1. Child-Centered Decision Making:** Children actively participate in identifying the risks they face and determining the most effective solutions. Their involvement ensures that Anticipatory Action is inclusive and tailored to the realities they experience.
- 2. Localisation and Accountability:** Communities, including children, are often the first to respond to early warning signs. We equip local actors with the resources and knowledge to take timely action. This ensures children and communities are empowered to respond quickly and flexibly when needed.
- 3. Continuous Learning and Innovation:** We constantly learn from our work, our partners,

Special Libraries In Action Cases And Crises:

Special Libraries in Action Esther Green Bierbaum, 1993 **Special Libraries**, 1996 Vols for 1980 include Annual directory issue **Reading, Writing, and Bookish Circles in the Ancient Mediterranean** Jonathan D.H. Norton, Garrick Allen, Lindsey A. Askin, 2022-06-30 By integrating conversations across disciplines especially focusing on classical studies and Jewish and Christian studies this volume addresses several imbalances in scholarship on reading and textual activity in the ancient Mediterranean Contributors intentionally place Jewish Christian Roman Greek and other reading circles back into their encompassing historical context avoiding subdivisions along modern subject lines divisions still bearing marks of cultural and ideological interests In their examination contributors avoid dwelling upon traditional methodological debates over orality vs literacy and social classifications of literacy instead turning their attention to the social historical groups of people circles and networks strata and class scribal culture material culture epigraphic and papyrological evidence functions and types of literacy and the social relationships that all of these entail Overall the volume contributes to an emerging and important interdisciplinary collaboration between specialists in ancient literacy encouraging future discussion between two currently divided fields Library & Information Science Abstracts, 1994 **Library Literature** H.W. Wilson Company, 1934 An index to library and information science The Bowker Annual Dave Bogart, 1997 **Library Literature**, 1993 **The Cuban Missile Crisis, 1962**, 1990 **Bibliographic Index**, 1994 *Legal Information Management Index*, 1994 **The Cumulative Book Index**, 1994 A world list of books in the English language **Power, Politics, Law: International Law and State Behaviour During International Crises** Radhika Withana, 2008-07-31 This volume addresses the question as to where international law fits into the making and implementation of foreign policy during an international crisis in which a State is considering and or may actually use force Empirical literature on the law State behaviour relationship during international crises has not been able to answer this question adequately The limitations of existing empirical literature are identified as stemming from the limitations of existing positivist realist and functionalist theoretical explanations of the law State behaviour relationship These theoretical approaches which underpin existing empirical literature on international crises assume that international law matches what is referred to in this book as its rule book image This is the notion of international law as a finite set of objective politically neutral rules that can be applied so as to distinguish objectively between legal and illegal action The rule book image of international law does not match reality but the assumption that it is true underpins both theoretical literature and references to international law in political rhetoric The rule book image and the reality of international law have been reconciled within the theory of International law as Ideology ILI as developed by Shirley Scott This book hypothesises that an ILI perspective offers a better explanation of the law State behaviour relationship during international crises than rival explanations grounded in positivism realism or functionalism Four case studies of State behaviour of the US the Soviet Union and the PRC during the Korean War 1950 1953

of the US and UK during the Suez crisis 1956 of the US and the Soviet Union during the Cuban Missile Crisis 1962 and of the US and an alliance of Latin American States during the Dominican Republic crisis 1965 are used to test the hypothesis The findings confirm the greater explanatory efficacy of ILI and demonstrate that the significance of international law to foreign policy decision making during international crises is more than that of deterring the use of force as is assumed by rival theoretical approaches grounded in a rule book image of international law International law is shown to serve as a vehicle for inter State competition during international crises

Proceedings of the Twentieth Annual Conference of the Cognitive Science Society Morton Ann Gernsbacher, Sharon J. Derry, 2022-05-16 This volume features the complete text of the material presented at the Twentieth Annual Conference of the Cognitive Science Society As in previous years the symposium included an interesting mixture of papers on many topics from researchers with diverse backgrounds and different goals presenting a multifaceted view of cognitive science This volume contains papers posters and summaries of symposia presented at the leading conference that brings cognitive scientists together to discuss issues of theoretical and applied concern Submitted presentations are represented in these proceedings as long papers those presented as spoken presentations and full posters at the conference and short papers those presented as abstract posters by members of the Cognitive Science Society
