### **Specialty Retailers -- Marketing Triumphs and Blunders** Ronald D. Michman, Edward M. Mazze, 2001-02-28

Michman and Mazze present five key variables that retailing executives in nine specialty businesses must understand and work with to gain and sustain competitive advantage in their competitive environments Innovation target market segmentation image development physical store decor and human resource management are identified and examined Authors argue convincingly from research and practical experience that these fundamental considerations are crucial to achieving competitive dominance With up to date analyses and extensive coverage of e commerce and internet retailing as well their book is essential for retailing executives Michman and Mazze find that successful specialty retailers are not all things to all customers and do not try to be They are however the first to apply new technologies Authors analyze the development of specialty stores in the U S and tie their variables together in an epilogue Along the way they make clear that by focusing on their five critical variables we can understand how marketing successes come about and what causes blunders in the nine highly important store categories under their examination here They point out that not all of their variables need be used concurrently Some may be more critical than others and this depends on environmental and competitive conditions Backing it all up is meticulously developed evidence from their research and personal experience all of it presented readably and in a way that practitioners can understand and immediately apply Specialty Shop Retailing Carol L.

Schroeder, 2007-06-04 Unlike other books on retailing Specialty Shop Retailing is aimed at the reader who has a dream of opening a store but little background in this type of business The book takes into account the fact that their motivation is often not primarily monetary but rather the intangible benefits of creating your own business and working with people and products that you love This new and improved 3rd edition includes material about selling on the Internet including eBay storefronts online marketing and customer service improvements and changes in the retailing field such as competing with big box retailers and the demise of the sales rep system Plunkett's Advertising & Branding Industry Almanac 2008:
