Speech Style And Social Evaluation:

Speech Style and Social Evaluation Howard Giles, Peter F. Powesland, European Association of Experimental Social Psychology, 1975 Speech Style and Social Evaluation Howard Giles, 1979 **Style** Nikolas Coupland, 2007-08-09 Style refers to ways of speaking how speakers use the resource of language variation to make meaning in social encounters This 2007 book develops a coherent theoretical approach to style in sociolinguistics illustrated with copious examples It explains how speakers project different social identities and create different social relationships through their style choices and how speech style and social context inter relate Style therefore refers to the wide range of strategic actions and performances that speakers engage in to construct themselves and their social lives Coupland draws on and integrates a wide variety of contemporary sociolinguistic research as well as his own extensive research in this field The emphasis is on how social meanings are made locally in specific relationships genres groups and cultures and on studying language variation as part of the analysis of spoken discourse **Research Methods in Language Attitudes** Ruth Kircher, Lena Zipp, 2022-07-07 Attitudes towards spoken signed and written language are of significant interest to researchers in sociolinguistics applied linguistics communication studies and social psychology This is the first interdisciplinary guide to traditional and cutting edge methods for the investigation of language attitudes Written by experts in the field it provides an introduction to attitude theory helps readers choose an appropriate method and guides through research planning and design data collection and analysis The chapters include step by step instructions to illustrate and facilitate the use of the different methods as well as case studies from a wide range of linguistic contexts The book also goes beyond individual methods offering guidance on how to research attitudes in multilingual communities and in signing communities based on historical data with the help of priming and by means of mixed methods approaches *Speech style and social evaluation*, 1975 **Indexing**

Authenticity Véronique Lacoste, Jakob Leimgruber, Thiemo Breyer, 2014-10-14 The concept of authenticity has received some attention in recent academic discourse yet it has often been left under defined from a sociolinguistic perspective This volume presents the contributions of a wide range of scholars who exchanged their views on the topic at a conference in Freiburg Germany in November 2011 The authors address three leading questions What are the local meanings of authenticity embedded in large cultural and social structures What is the meaning of linguistic authenticity in delocalised and or deterritorialised settings How is authenticity indexed in other contexts of language expression e g in writing or in political discourse These questions are tackled by recognised experts in the fields of sociolinguistics linguistic anthropology and contact linguistics While by no means exhaustive the volume offers a large array of case studies that contribute significantly to our understanding of the meaning of authenticity in language production and perception **Sociolinguistic Styles** Juan Manuel Hernández-Campoy, 2016-03-02 Sociolinguistic Styles presents a new and in depth historically rooted overview of the phenomenon of style shifting in sociolinguistic variation Written by an internationally acclaimed expert in the field the text

explores why where and when it occurs Full examination of the complex phenomenon of style shifting in sociolinguistics focusing on its nature and social motivations as well as on the mechanisms for its usage and its effects In depth up to date critical overview of the different theoretical approaches accounting for stylistic variation exploring their historical roots not only in sociolinguistics and stylistics or semiotics but also in classical fields such as rhetoric and oratory Coverage of a wide range of related concepts and issues from the oldest Greek ethos and pathos or Roman elocutio and pronuntiatio to the contemporary enregisterment stylisation stance or crossing Written by an academic who has been instrumental in developing theory in this area of sociolinguistics *Language in the Judicial Process* Judith N. Levi, Anne Graffam Walker, 2013-11-11

Legal realism is a powerful jurisprudential tradition which urges attention to social conditions and predicts their influence in the legal process The relatively recent social science in the law phenomenon in which social research is increasingly relied on to decide court cases is a direct result of realistic jurisprudence which accords much significance in law to empirical reports about social behavior The empirical research used by courts has not however commonly dealt with language as an influential variable This volume of essays coedited by Judith N. Levi and Anne Graffam Walker will likely change that situation *Language in the Judicial Process* is a superb collection of original work which fits well into the realist tradition and by focusing on language as a key variable it establishes a new and provocative perspective on the legal process The perspective it offers and the data it presents make this volume a valuable source of information both for judges and lawyers who may be chiefly concerned with practice and for legal scholars and social scientists who do basic research about law

Language Choice, Language Use, Language Attitudes of the Haitian Bilingual Community Flore Zéphir, 1990 Topics in Language and Culture for Teachers Steven Brown, Jodi Eisterhold, 2004 *Topics in Language and Culture for Teachers* is an introductory language and culture text designed for today's future teachers anthropologists and applied linguists The book explores from a variety of perspectives the interrelationships between language and culture that have the most significant implications for the classroom and for the global community Among the topics introduced are first language acquisition dialects sign language non verbal communication and pragmatics Each chapter is structured so that students will read about a topic answer comprehension questions consider relevant teaching scenarios gather and analyze data in further reading and pursue projects that require out of class research The book also encourages the use of films to provide deeper cultural understanding and context for various issues Three appendixes the family tree of languages language structure resources for further research and professional development and a glossary are included Issues in Second Language Acquisition Leslie M. Beebe, 1988
