## **Speed Reading Tutor Iv:**

**SILVER COURSE \* SPEED READING** Silviu Vasile, If you forget too quickly and too easily important things fundamental information and this negatively affects your personal and professional performance this forgetfulness becomes a problem for your development If you don't have a trained memory or if you haven't mastered speed reading techniques very well then all is not lost This book can help you for the next period but also for your whole life from now on You are the most qualified person who knows or needs to know what you are doing with your life where you are going and what your goals are for the future Think of yourself right now at this moment as the sum of the investments you have made over time up to the present moment Whether you are happy or not you have yourself to congratulate or to blame If you know what you want then you will continue to invest in your future If you're uncertain then you'll indulge in commonality and mediocrity If you've failed to perform so far or if you have but feel you can and deserve to do better then your answer is speed reading Just understand that speed reading is only your first step to success Speed reading teaches you what to read and how to read You need to give speed reading a chance Don't start off sceptically thinking that speed readers are just charlatans because you've got certain benchmarks milestones to guide you I've succeeded in this area and you certainly will too I have overcome my condition as a mediocre student then you will succeed in doing the same You are no different from successful people We all have the same huge potential Thanks to the activation of this potential we can read quickly and increase our personal value permanently What I'm suggesting to you through speed reading is to accumulate assets that bring you residual income extra energy and residual time that you can reinvest What I propose is that you invest resources in speed reading and brilliance When you are a genius person then whatever comes into your life you will be able to find solutions opportunities to evolve and embrace new life principles The first benefit of speed reading is improved memory The weaker your memory the more information gaps there will be and these gaps will decrease your personal performance You are a sum of memories If tomorrow you start forgetting important things then your life will never be the same Memory is not a quality you were born with and don't have to do anything for Memory is a medium to long term investment and depending on the capital you choose to invest you will get results If you take it seriously from high school and then train your memory during college and when you finish college you don't hang your degree on a nail but continue the training then you are already a successful person This course will only answer a number of questions and confirm what you already know

the information in that sport and being able to generate so much enthusiasm that it counteracts your desire to give up the fight and return to your comfort zone That s why I wrote about speed reading to start living in the culture of this wonderful field You have speed reading on your side With it you can get to break the 1000 words per minute barrier That means you ll be able to read four times faster than the average person with the same or even better comprehension of the text
