Bunnett, 1979 **Terpenoids and Steroids** Chemical Society (Great Britain), 1979 Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research. Written by experts in their specialist fields the series creates a unique service for the active research chemist supplying regular critical in depth accounts of progress in particular areas of chemistry. For over 90 years The Royal Society of Chemistry and its predecessor the Chemical Society have been publishing reports charting developments in chemistry which originally took the form of Annual Reports. However by 1967 the whole spectrum of chemistry could no longer be contained within one volume and the series Specialist Periodical Reports was born. The Annual Reports themselves still existed but were divided into two and subsequently three volumes covering Inorganic Organic and Physical Chemistry. For more general coverage of the highlights in chemistry they remain a must. Since that time the SPR series has altered according to the fluctuating degree of activity in various fields of chemistry. Some titles have remained unchanged while others have altered their emphasis along with their titles some have been combined under a new name whereas others have had to be discontinued. The current list of Specialist Periodical Reports can be seen on the inside flap of this volume *Handbooks and Tables in Science and Technology* Russell Powell, 1994-08-15 The bibliography covers physics chemistry engineering mathematics astronomy biology geology agriculture medicine environment energy equations manufacturing materials measurement carcinogens and pesticides *International Books in Print* ,1991 **Transition Metal Mediated Formation of Carbon-carbon Bonds** Norman Robert Schmuff, 1982 *Biosynthesis of Natural Products* Paolo Manitto, 1981 **Scientific and Technical Books and Serials in Print** ,1989 **Books in Print** ,1981 Subject Guide to Books in Print ,1993 *National Agricultural Library Catalog* National Agricultural Library (U.S.), 1979 *Chemické listy* ,1978 *Structure Determination in Organic Chemistry* Lloyd Miles Jackman, 1976 Mass spectrometry Ultraviolet and visible spectroscopy Nuclear magnetic resonance spectroscopy X ray crystallography Natural products structure determination **Structure Determination in Organic Chemistry** ,1976 *National Union Catalog* ,1978 Includes entries for maps and atlases *Subject guide to German books in print* ,1986 **Stereochemistry** Henri B.
