origins aesthetic characteristics and relation to the history of sculpture while revealing the artist's philosophy and view of the world. The author shows that Houser has always been alert to the directions of his contemporaries such as Noguchi, Moore and Hepworth but has been steadfast in finding his own Way. Illustrated are nearly 300 works, 132 of them in full color as well as many rare and fascinating photographs documenting the story of Allan Houser and his people. Amazon.com

Native American History and Heritage Apache of the Southwest is a narrative non-fiction book. Learn about what life was like in the Apache tribe before the influx of European immigrants. Their lifestyle, hunting skills, diet, parenting style, resources, and more. It also features the history of the Apache Spanish missionaries, the Apache creation story, the differences and similarities between the lives of men and women, their superstitions, and their great leaders like Geronimo, Cochise, and his son, Naiche. Also included are historical and contemporary photos and drawings of the tribe and parts of its culture, maps, fascinating facts, chapter notes, suggested reading, and a glossary. Find out what early life was like for the Apache of the Southwest and how it framed the present.

[Social Identities Among Archaic Mobile Hunters and Gatherers of the American Southwest](#) Maxine McBrinn, 2005 The mobile hunters and gatherers of the Archaic Southwest were members of at least three different kinds of social groups: bands, endogamous marriage groups, and a risk-sharing economic network. By comparing the geographic distributions of iconological and technological style in cordage, sandals, and projectile points, it is possible to distinguish marriage groups from the larger economic networks. Using artifacts from Bat Cave, Tularosa Cave, and Cordova Cave in the New Mexico Mogollon and from Fresnal Shelter in the Tularosa Basin, this research demonstrated that technological style in fiber artifacts is more geographically constrained than iconological style in sandals or projectile points, indicating that although the bands using these rock shelters came from different marriage groups, they participated in the same risk-sharing economic network.
