Hoekman, 2003-05-15 A Brookings Institution Press and the Egyptian Center for Economic Studies ECES publication Improving the economic performance of Arab countries is now more critical than ever The region faces high population growth rates rising unemployment and modest economic growth coupled with increasingly intense competition from emerging markets in eastern Europe Latin America and Asia Meeting these challenges requires finding ways to overcome political obstacles that impede socially beneficial economic reforms Despite fifty years of repeated attempts at Arab economic integration the results in terms of intraregional trade and investment flows have been very modest This book explains why and discusses possible ways forward The authors draw especially on the success of the European Union to assess the scope of Arab economic integration as an instrument for narrowing the persistent gap between the region's economic potential and its performance **The Arab Economy Today** Samir Amir, 1984 **The Routledge Handbook on the Middle East Economy** Hassan Hakimian, 2021-07-08 This Handbook captures the salient features of Middle Eastern economies and critically examines the public policy responses required to address the challenges and

opportunities across the region Bringing together wide ranging perspectives from carefully selected and renowned subject specialists the collection fills a gap in this relatively young and growing academic field Combining discussion of theory and empirical evidence the book maps out the evolution of Middle East economics as a field within area studies and applied development economics Presented in six thematic sections the book enables the reader to gain a comprehensive understanding of the region s main economic themes and issues Growth and development in comparative perspectives Labour force and human development Natural resources resource curse and trade Poverty inequality and social policy Institutions and transition to democracy Corruption conflict and refugees Providing an overview of the principal economic problems policies and performances relating to the countries in the Middle East and North Africa region this collection will be a key resource for upper level undergraduates graduates and scholars with an interest in Middle East economics applied development economics development studies and area studies

Nixon's Economy Allen J. Matusow,1998 Historian Allen J Matusow now presents the first comprehensive history of Nixon s political economy He depicts a president who disliked the subject but was forced to pay attention or lose his dream of effecting a historic realignment of the political parties in America The study derives its authority from extensive archival

research in Nixon's presidential papers including notes by Haldeman and Ehrlichman of crucial conversations in the Oval Office Matusow shows the poverty of contemporary economic theory Nixon's willingness to sacrifice the world economy for his domestic political purposes and his desperate attempts to find something anything that might work Lurching from one set of policies to another Matusow argues Nixon achieved only illusory successes that ultimately brought on a decade of economic disaster Middle East Economic Digest ,2007 The Soviet Economic Challenge ,1959
