The Architecture Of The City

James Fergusson

The Architecture Of The City:

The Architecture of the City Aldo Rossi,1984-09-13 Aldo Rossi was a practicing architect and leader of the Italian architectural movement La Tendenza and one of the most influential theorists of the twentieth century The Architecture of the City is his major work of architectural and urban theory In part a protest against functionalism and the Modern Movement in part an attempt to restore the craft of architecture to its position as the only valid object of architectural study and in part an analysis of the rules and forms of the city s construction the book has become immensely popular among architects and design students **The Architecture of Marcus Vitruvius Pollio, tr. by J. Dickey** Robert Jay,1992 Any serious observer of Hawaii s architecture will be struck by the frequent recurrence of one name Charles Dickey This prolific and multifaceted architect enjoyed a remarkably successful career From the intimate tropical bungalows he designed in Waikiki to the large scale commercial projects and schools that dominated his California years Dickey s work exhibits both eclecticism and diversity For many years the preeminent figure in Hawaii architecture he is often identified with the development of a uniquely Hawaiian style The first individual raised in Hawaii to receive a classic architectural education in the U S Dickey joined the Honolulu firm of Clinton B Ripley in 1896 In the years that followed the Ripley Dickey partnership played an enormous role in transforming both the burgeoning business district and the residential neighborhoods of the city Working in a wide variety of architectural styles the young Dickey reflected both his own historicist training and the diverse demands of his corporate clients in turn of the century Honolulu He also began to explore the vernacular traditions of Hawaiian architecture traditions that would form the basis for his later work in Hawaii and become a signature of his style In 1905 Dickey relocated to Oakland where although he encountered keener competition than he had known in Honolulu he enjoyed a successful practice for twenty years Of particular interest are his experiments with California s Mission Style architecture and his innovative use

of structural steel which enhanced his reputation in the aftermath of the San Francisco earthquake It was there too that he added Japanese architectural traditions to his increasing range of stylistic options Upon his return to Honolulu in 1926 Dickey began to cultivate what he considered to be a uniquely Hawaiian style of architecture a style that increasingly emphasized broad double hipped roofs and open spacious plans that were intimately linked to the surrounding tropical environment In the late twenties and thirties Dickey developed this style in a remarkable variety of building types becoming the truly dominant architect of Honolulu The Architecture of Charles W Dickey provides a convenient overview of much of Hawaii s architectural history Robert Jay begins his study with a concise historical survey of nineteenth century Hawaiian architecture Dickey s own career takes the story from the mid 1890s to World War II encompassing a period of enormous change in modern architecture the conclusion highlights the significant architectural contributions of Dickey s contemporaries and of firms operating today This work will be of interest to historians of American architecture as well as specialists in American and Hawaiian studies It will also appeal to those interested in the history of Honolulu s urban development who will find that the spirit of Dickey s work survives even today BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved   **Aldo Rossi** Adolf Max Vogt,1983   *History of Chicago: From the fire of 1871 until 1885* Alfred Theodore Andreas,1886   **A History of Architecture in All Countries** James Fergusson (Architecte),1893   The Building News and Engineering Journal ,1872   **The Architect and Contract Reporter** ,1897
