The Argument For Reincarnation:

A Philosophical Critique of Empirical Arguments for Postmortem Survival Michael Sudduth, 2016-01-26 Sudduth provides a critical exploration of classical empirical arguments for survival arguments that purport to show that data collected from ostensibly paranormal phenomena constitute good evidence for the survival of the self after death Utilizing the conceptual tools of formal epistemology he argues that classical arguments are unsuccessful The Case for the Afterlife Chris Carter, 2025-08-05 The evidence for an afterlife is vast varied and ancient Now meticulously compiled into one place this evidence can be critically evaluated to resolve the age old controversy of survival beyond death Equipping you with a tool kit drawn from science philosophy and legal reasoning Oxford educated philosopher Chris Carter facilitates a thorough examination of the evidence and its corresponding counterarguments Explore compelling case studies of near death experiences deathbed visions apparitions children who remember a previous life and communications from the deceased With findings that cannot be explained away by fraud mistaken eyewitness testimony incompetence or extrasensory perception ESP this book proves beyond all reasonable doubt that our consciousness endures past bodily death The most factually based and rationally argued treatise I have ever read Reading this book will be a mind blowing clarification Ervin Laszlo author of Science and the Akashic Field The Argument for Reincarnation William Walker Atkinson, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work Encyclopedia of Reincarnation and Karma Norman C. Reincarnation and the Law of Karma William Walker Atkinson, 1908 By Reincarnation we mean the repeated incarnation or embodiment in flesh of the soul or immaterial part of man's nature The term Metempsychosis is frequently employed in the same sense the definition of the latter term being The passage of the soul as an immortal essence at the death of the body into another living body The term Transmigration of Souls is sometimes employed the term being used in the sense of passing from one body into another But the term Transmigration is often used in connection with the belief of certain undeveloped races who held that the soul of men sometimes passed into the bodies of the lower animals as a punishment for

their sins committed during the human life But this belief is held in disrepute by the adherents of Reincarnation or Metempsychosis and has no connection with their philosophy or beliefs the ideas having sprung from an entirely different source and having nothing in common There are many forms of belief many degrees of doctrine regarding Reincarnation as we shall see as we proceed but there is a fundamental and basic principle underlying all of the various shades of opinion and divisions of the schools This fundamental belief may be expressed as the doctrine that there is in man an immaterial Something called the soul spirit inner self or many other names which does not perish at the death or disintegration of the body but which persists as an entity and after a shorter or longer interval of rest reincarnates or is re born into a new body that of an unborn infant from whence it proceeds to live a new life in the body more or less unconscious of its past existences but containing within itself the essence or results of its past lives which experiences go to make up its new character or personality It is usually held that the rebirth is governed by the law of attraction under one name or another and which law operates in accordance with strict justice in the direction of attracting the reincarnating soul to a body and conditions in accordance with the tendencies of the past life the parents also attracting to them a soul bound to them by some ties in the past the law being universal uniform and equitable to all concerned in the matter This is a general statement of the doctrine as it is generally held by the most intelligent of its adherents **Reincarnation** Jerome A.
