Special Programs and Services in Schools Bonnie Beyer, Eileen S. Johnson, 2014-06-18 New edition of the definitive text thoroughly updated with information on Race to the Top, NCLB revisions, ESEA Reauthorization, federal, state, and district responsibilities. Spells out requirements and legislated mandates for special education, ESL, food service, disability, health services, gifted education, school to work, etc. For administrators in public, private, and charter schools. Used as a text at Texas A&M, Houston, Michigan, and many other universities. Created for school administrators in public and private schools, this book is an update of the original 2005 volume that organized and explained virtually all federally mandated programs. The third curriculum that helps dictate how U.S. schools are managed. Used as a textbook in many universities, it lists and explains dozens of new U.S. laws and amendments from the past decade and situates them in the context of states and districts. It investigates the goals and requirements of dozens of education programs and clarifies government regulations affecting students as well as citizens who come in contact with schools, e.g., disabled individuals, job seekers, employees, non-English speaking parents, and many other groups. Encompassing and yet going far beyond special education, the text offers pointers and case studies on how programs should be administered to improve learning outcomes as well as heighten a school's community profile. The detailed concrete information in this book is indispensable for understanding government requirements, accessing the right agencies, reducing discrimination, and avoiding legal entanglements. At the same time, the 10 chapters of this volume are readily integrated into a syllabus for courses on special programs in schools.
