Legal Aspects of Special Education Kurt Hulett, 2009. For every course in Special Education Law and Education Law or as a perfect supplement to any Educational Administration course. Legal Aspects of Special Education was written by a practitioner to help teachers, administrators, and advocates understand special education law in everyday language without excessive legalese or extraneous case law. Different in many ways from other special education law texts on the market, all of the elements of this text are intended to help its students obtain the most critical information about special education law and how it is applied in the real world. Some unique features include a fascinating opening interview and then epilogue with Joe Ballard, a pioneer of the IDEA movement; a discussion of Response to Intervention (RTI) and the implication of IDEA 2004 for school districts; and a discussion of the history of special education and its link to the Civil Rights Movement. Additionally, the book provides case studies and application questions, critical thinking questions, the most current information on the laws including No Child Left Behind and the Individuals with Disabilities Education Act of 2004, and a discussion of major trends changing the laws, including that of autism.

Special Education Law Laura Rothstein, Scott F. Johnson, 2025-08-19. The 7th Edition of Special Education Law, written by Laura Rothstein and Scott F. Johnson, provides a comprehensive and current overview of the major federal law and judicial interpretations of those laws that apply to special education students. School administrators and attorneys attend to special education issues on a regular basis, and local superintendents, principals, special education professionals, psychologists, and regional and state administrators must also be familiar with the legal requirements of educating students with disabilities. Classroom teachers of all types need to be aware of the laws that affect them and their students. Special Education Law 7e is intended for students in education and educational administration, both graduate and undergraduate, as well as law students in courses on special education law, school law, and special education. The framework of this book begins

with five introductory chapters on the major issues that are addressed in special education law. These topics include an overview of the legal system, the history of special education, major statutes in special education law, stakeholders such as students, families, educators, and advocates, and finally requirements for protection under various special education laws. The remainder of the text presents and analyzes special education case law within specific contexts. The text helps educators understand what the law requires so that they can make decisions that comply with these laws. The 7th edition reflects major changes in judicial interpretation and education policy developments at the federal level since 2021, including the dramatic impact of the COVID pandemic on education generally and special education specifically, a new Supreme Court decision, and new references and examples throughout.

Special Education Law Case Studies David F. Bateman, Jenifer Cline, 2019-01-12 Tremendous changes have occurred over the past decade in the provision of services to students with disabilities. Federal mandates continue to define requirements for a free appropriate public education (FAPE) in the least restrictive environment. Additionally, there has been an increase in the number of lawsuits filed against school districts regarding the provision of educational services for students with disabilities. Case studies are a helpful way to understand these difficult issues. The case studies presented here are actual students eligible for special education and related services. The case studies are represented not to tell districts and parents that this is the only way questions about special education law can be answered, but to provide likely answers along with commentary for analysis. The cases were developed to help new and experienced special education leaders and supervisors survive the pressures of working with students with disabilities while working to provide appropriate services and prevent litigation.

The Law of Special Education and Non-Public Schools Charles J. Russo, Allan G. Osborne Jr., Joseph D. Massucci, Gerald M. Cattaro, 2009-06-16 The Law of Special Education and Non Public Schools provides an informed explanation of Section 504

the IDEA their regulations and the cases that they have generated Even though the authors offer educators information on the rights of children in non public schools this book is not a how to manual It is designed to help make educators and parents aware of the requirements governing the laws that impact the rights of children with disabilities in order to implement both Section 504 and the IDED In light of the detail that the book provides it serves as a current and concise desk reference for educators ranging from building or district level administrators to classroom teachers to resource specialists in special education and related fields

Special Education Law Steven S. Goldberg, 2012-12-06 To any professional concerned with exceptional children it would be the greatest understatement to say that the courts and legislatures have had a tremendous impact on the field of speeial education Especially in the last decade a flood of litigation filed to develop and define the right to education of previously unserved handicapped children has left no special education teacher school adminis trator nurse educational psychologist or pediatrician unaffected either be cause these professionals are daily called upon to help children or because they may come forward as witnesses on behalf of children who are the subjects of special education meetings individualized education programs placement hear ings or judicial proceedings Thus for these people questions regarding a student s legal rights are immediate and pervasive This book developed out of the need to provide nonlegal professionals with a lawyer s view of the huge body of court cases and federal laws and regulations that affect their practice as well as their students and clients An introductory chapter provides the historical basis of the current interface between law and special education The Education for All Handicapped Children Act of 1975 and Sec tion 504 of the Rehabilitation Act of 1973 and their regulations promulgated in 1977 are the major national laws in the field nd are therefore described in Chapters 2 and 3

Current Trends and Legal Issues in Special Education David Bateman, Mitchell L. Yell, 2019 Many special education leaders have worked for years in special education as either teachers or related services providers and most states have standards for certification for the role of the special education administrator leader With their broad formal education and years of experience they should be able to meet the challenges of building and program leadership Special education leaders need to be prepared to tackle any problem related to teaching and learning personnel selection and evaluation basic financial management parent and community relations and legal matters related to special education However just like other school leaders many in special education are overwhelmed with the demands of the job while at the same time having to provide services with an increasing diverse population in an underfunded system and growing negative public perception of the education system Special education leaders will experience the burden of many responsibilities in their position such as fulfilling the spirit and letter of the law regarding students with disabilities helping staff keep abreast of best practices and meeting the ever increasing demands from communities and families They can suddenly be thrust into situations in which they must become the final arbiter on matters related to plethora of processes and procedures such as IEP team meetings manifestation determinations requests for mediation or due process hearings and IDEA compliance It is likely that many of these will be new leaders who will need guidance and direction as they move the teams ahead Special education leaders are expected to be experts on all levels and types of special education services available within and outside of the district every disability and all aspects of special education programming from early intervention to post secondary transition Recognizing that few administrators feel adequately prepared for these roles Special Education Leadership will be developed to enable practicing leaders to build and support effective special education programs to include supervising and supporting teachers review programs and implement special education law [Law and Special Education, The](#), Mitchell L.
