Special Operations Forces An Assessment:

Special Operations Forces John M. Collins, 1994-11 In this volume John Collins speaks with the authority of one who was literally present at the birth of the low intensity conflict era His long term intimate and direct contact with the esoteric world of special operations has few parallels Their roots go back in time and history considerably farther but today s Special Operations Forces are largely products of the past three decades Their development has been in response to the pressures of world wide situations perceived to bear upon or which actually do affect American strategic interests The use of raw military power may not provide solutions to the complex problems involved and may even be counter productive Special Operations forces uniquely suited to fill the quasi military gap require the highest degree of professional competence in the application of the classical principles of war This is a big order It is difficult in a few words to pay John Collins the tribute he deserves for continuing efforts to educate both the Congress and the U S Armed Forces concerning the capabilities and limitations of special operations and the forces they involve This latest addition to his carefully researched studies combines history philosophy factual data and reference materials in a single document that should be on the desks of civilian and military leaders whose responsibilities relate in any way to special operations

Special Operations Forces John M. Collins, 1994

Special Operations Forces in the 21st Century Jessica Glicken Turnley, Kobi Michael, Eyal Ben-Ari, 2017-08-09 This book sets out the major social scientific approaches to the study of Special Operations Forces Despite consistent downsizing over the past two decades the armed forces of the industrial democracies have seen a huge growth in Special Operations Forces SOF Through increasing numbers of personnel and more frequent deployments SOF units have wielded considerable influence in conflicts around the world with senior SOF officers having led major strategic operations This increased presence and unprecedented expansion for SOF is largely a result of the new kinds of conflicts that have emerged in the 21st century At the same time even with this high profile in the military policy and media and popular cultural arenas there is relatively little social scientific research on SOF This volume aims to fill this gap by providing a series of studies and analyses of SOF across the globe since the end of World War II Analysing SOF at the micro mezzo and macro levels provides broad and diverse insights Moreover the volume deals with new issues raised by the use of such forces that include emerging modes of civilian control innovative organizational forms and the special psychological characteristics necessitated by SOF operatives It concludes with a discussion of a question which continues to be debated in today s militaries what makes SOF special Filling a clear gap in the literature this book will be of much interest to students of strategic studies civil military relations irregular warfare security studies and international relations

marks the 30 year historical point for the special operations forces SOF formed when Congress added an amendment to the Goldwater Nichols reform legislation that created the United States Special Operations Command USSOCOM Since that time this force has been preserving strategic options for the U S and their track record is second to none For the last decade and a half we have relied heavily on SOF to perform activities in support of counterterrorism operations However we must keep in mind that SOF activities such as unconventional warfare UW foreign internal defense counter messaging and hostage rescue remain equally important to countering aggression of other actors including nation states Despite drawdowns of conventional forces and overseas contingencies the demand for SOF remains high across the combatant commands SOCOM and the Assistant Secretary for Special Operations and Low Intensity Conflict clearly have a lot on their plate Last year SOCOM was assigned the responsibility for synchronizing the countering weapons of mass destruction CWMD mission from Strategic Command STRATCOM The threats that the U S faces today are ever evolving and complex and will continue to shape our special operations forces and policies for employment of those forces In thinking about the years ahead we must ask hard questions after nearly 16 years of constant war including What parts of this force are broken and what needs to be repaired quickly What adversarial nation states are advancing faster and achieving a qualitative edge over our forces And what must we do to ensure that our special operations forces are postured for the next 30 years to mitigate our most pressing national security concerns and to continue to preserve strategic options for our Nation
