The Theatre, 1895 Vol for 1888 includes dramatic directory for Feb Dec vol for 1889 includes dramatic directory for Jan May *Staging Change* Victoria L. Scrimmer, 2024-12-12 Exploring a wide variety of examples of activist performances such as David Buckel's self immolation and the January 6th capitol insurrection this book analyses activist performance through the lens of postdramatic theatre theory *Staging Change* poses the provocative question are activists addicted to drama Scrimmer examines the ways in which the performance and reception of protest is informed by the logic of dramatic theatre and argues that such performative arrangements are so naturalized that they can limit the ability of activists and their audiences to imagine different ways of precipitating change By combining performance analysis interviews with artists and activists and autoethnographic accounts of the author's own experiences as an environmental activist the book illustrates the limitations and alternatives to dramatic representation in activist performance The last decade has seen an increase in political

demonstrations worldwide particularly following the excitement and disappointments of the Arab Spring uprisings We have seen several notable movements such as the Occupy movement the mobilization of Black Lives Matter and the MeToo movement In response scholars artists and activists from diverse disciplines have produced an exciting array of practical and theoretical approaches for talking about and thinking through activism Utilizing these interdisciplinary approaches Scrimmer offers us a theoretical inquiry into the possible applications of Hans Thies Lehmann's postdramatic theatre theory in the context of political activism and subsequently extends an alternative conceptual model for activist performance beyond the dramatic paradigm
