WM. T. Harris

Speculative Philosophy:

Reason, Reality, and Speculative Philosophy Arthur Edward Murphy, 1996 Though one of the best known and most highly regarded philosophers of his day Arthur E Murphy left few books behind least of all the big book he alluded to throughout his life but for reasons unknown never published Reason Reality and Speculative Philosophy is derived from that book manuscript so famous and yet so unknown and offers at last a clear and definitive statement of Murphy's view of the place and purpose of philosophy Most of all this book introduces readers to a genuine lover of wisdom a philosopher who used ordinary English to address traditional problems of philosophy Murphy gives a critical account of speculative philosophy and at the same time offers a constructive attempt to outline a philosophy true to both reason and reality In the process he examines the speculative philosophies of F H Bradley C S Peirce Bertrand Russell George Santayana and A N Whitehead among others and dissects various forms of realism and idealism His work thus provides a trenchant critique of the major philosophical tendencies of the period from 1890 to 1940 This long lost work recovered and edited with expert care by Marcus G Singer is a contribution to philosophic reason that is penetrating comprehensive witty and wise *Speculative Philosophy* Donald Phillip Verene, 2009-04-16 In this original and illuminating work the reader is invited to approach philosophy as an activity that can instruct delight and move On this view philosophy can be seen as a key to human education a mastery of humane letters and a part of the repulic of the liberal arts Embracing this approach to philosophy Verene argues involves moving beyond modern philosophy's analytical encounter with experience one that emphasizes argument and criticism at the expense of the Socratic search for self knowledge Relying on insights from Vico and Hegel Verene introduces a new sense of reason one that sees the True as the whole and that connects reason to the ancient sense of speculation Reflection and criticism are given their due but the reorientation of philosophy toward the speculative grasp of the whole of things allows memory imagination and dialectical ingenuity to take on philosophical form In the end this work show how speculation symbolic form metaphor poetry and rhetoric are natural parts of philosophical thinking **The Journal of speculative philosophy**, 1879 **An Introduction to Speculative Philosophy and Logik** Augusto Vera, 1875 *The Journal of Speculative Philosophy*, 2004 **THE JOURNAL OF SPECULATIVE PHILOSOPHY** WILLIAM T HARRIS, 1883 Historical Development of Speculative Philosophy from Kant to Hegel Heinrich Moritz Chalybäus, 1854 **The Journal of Speculative Philosophy Vol. XIII** WM. T. Harris, 1879 Whitehead and Philosophy of Education Malcolm D. Evans, 1998 That process philosophy can be the foundation of the theory and practice of educating human beings is the main argument of this book The process philosophy of Alfred North Whitehead 1861 1947 is the particular thinking on which this book is based Readers are shown that Whitehead's process philosophy provides a frame a conceptual matrix that addresses their concerns about education and offers direction for their educative acts Whitehead theorized that all living entities are connected in some way Relatedness connectedness and holism are recurring themes in this exploration of Whitehead's

implied philosophy of education Whitehead never wrote a philosophy of education but his writings over a period of nearly thirty years reveal a persistent interest and concern with education His work ranging from *Introduction to Mathematics* 1911 to *Adventures of Ideas* 1938 is drawn on here to construct not Whitehead's philosophy of education but a Whiteheadian philosophy of education Whitehead and *Philosophy of Education* brings to scholars and students of education an understanding of Whitehead as an important figure in philosophy particularly philosophy of education an acquaintance with process philosophy a brief treatment of Whitehead's life and an account of events and experiences that influenced his philosophizing and an exploration of the educationally salient concepts found in Whitehead's formal and informal philosophy with special attention to Whitehead's ideas about creativity process rhythm wisdom and knowledge Whitehead writes of phases of the rhythm of education romance precision and generalization The book is organized with attention to these three phases Part One Romance introduces readers to Whitehead the person and the change of context for educating from a mechanistic world view to an organismic one Part Two Precision examines Whitehead's writings as they relate to process philosophy and to educating Part Three Generalization is an application of the explorations of Parts One and Two yielding a construction of a Whiteheadian philosophy of education and suggestions for educational practice
