The Apple And The Moth:

The Apple and the Moth Iela Mari, Enzo Mari, 1970 Illustrates without words how a worm becomes a moth **The Apple and the Moth** ,1969 **The Control of the Codling Moth and the Apple Scab** C. L. Marlatt, William Allen Orton, 1906 The codling moth or apple worm and the apple scab have no direct relationship except that both attack the apple and are respectively the chief insect enemy and the chief fungous disease of this fruit Both are however subject to practical control by sprays which being necessary at the same dates in the main can be combined in single applications and it is for this reason that they are considered together in this bulletin A brief life history is given of the codling moth with a description of the sprays and other remedies for it followed by similar matter on the apple scab The bulletin concludes with a joint consideration for both pests of spraying outfits and methods with directions for the combination of the spray mixtures and a spray calendar introduction The Apple Culturist Sereno Edwards Todd, 1871 *Codlin Moth* Tasmania.
