intellectuals devoted years of their lives to passing rigorous examinations in order to obtain a civil service position in the state bureaucracy This traditional employment of the literati class conferred social power and moral legitimacy but changing social and political circumstances in the Ming (1368-1644) and Qing (1644-1911) periods forced many to seek alternative careers Politically engaged but excluded from their traditional bureaucratic roles creative writers authored critiques of state power in the form of fiction written in the vernacular language In this study Liangyan Ge examines the novels *Romance of the Three Kingdoms* *The Scholars* *Dream of the Red Chamber* also known as *Story of the Stone* and a number of erotic pieces showing that as the literati class grappled with its own increasing marginalization its fiction reassessed the assumption that intellectuals proper role was to serve state interests and began to imagine possibilities for a new political order The open access publication of this book was made possible by a grant from the James P. Geiss and Margaret Y. Hsu Foundation

**The Margins of Utopia** Ellen Widmer, 2020-03-17 Twenty eight years after the collapse of the Ming dynasty Ming

loyalism was still a strong political and intellectual resistance to the new Manch order. Consists of eight chapters, two appendices, notes, bibliography, glossary, and index. *Shui hu hou chuan* first published in 1664 is the work of Chen Chen, a man loyal to the Ming who used this novel as a way of giving covert expression to the frustrations of those times. In *The Margins of Utopia*, Ellen Widmer draws on contemporary sources including Chen's own poetry to connect *Shui hu hou chuan* with the historical context from which it emerged. At the same time, she discusses the place of the novel in the history of Chinese fiction and shows how familiar conventions are put to new uses in Chen's hands.

### **Sexology and Translation**

Heike Bauer, 2015-10. Examines the shape and shaping of sexual ideas and related scientific practices and cultural representations in parts of Europe, Asia, the Middle East and South America between the late 19th century and the years leading up to World War II, offering insights on the intersections between sexuality and modernity in a range of disciplinary, cultural and trans-national contexts.

*After Eunuchs*, Howard Chiang, 2018-08-07. For much of Chinese history, the eunuch stood out as an exceptional figure at the margins of gender categories. Amid the disintegration of the Qing Empire, men and women in China began to understand their differences in the language of modern science. In *After Eunuchs*, Howard Chiang traces the genealogy of sexual knowledge from the demise of eunuchism to the emergence of transsexuality, showing the centrality of new epistemic structures to the formation of Chinese modernity. From anticastration discourses in the late Qing era to sex reassignment surgeries in Taiwan in the 1950s and queer movements in the 1980s and 1990s, *After Eunuchs* explores the ways the introduction of Western biomedical sciences transformed normative meanings of gender, sexuality and the body in China. Chiang investigates how competing definitions of sex circulated in science, medicine, vernacular culture and the periodical press, bringing to light a rich and vibrant discourse of sex change in the first half of the twentieth century. He focuses on the stories of gender and sexual minorities as well as a large supporting cast of doctors, scientists, philosophers, educators, reformers, journalists and tabloid writers as they debated the questions of political sovereignty, national belonging, cultural authenticity, scientific modernity, human difference and the power and authority of truths about sex. Theoretically sophisticated and far-reaching, *After Eunuchs* is an innovative contribution to the history and philosophy of science and queer and Sinophone studies.
