The Press In Ireland:

The News from Ireland Maurice Walsh, 2011-03-24 The Anglo Irish war of 1919-1921 was an international historical landmark the first successful revolution against British rule and the beginning of the end of the Empire However the Irish revolutionaries did not win their struggle on the battlefield their key victory was in mobilising public opinion in Britain and the rest of the world Journalists and writers flocked to Ireland where the increasingly brutal conflict was seen as the crucible for settling some of the key issues of the new world order emerging from the ruins of World War One On trial was the British Empire's claim to be the champion of civilisation as well as the principle of self-determination proclaimed by the American president Woodrow Wilson The News from Ireland vividly explores the work of British and American correspondents in Ireland as well as other foreign journalists and literary figures It offers a penetrating and persuasive assessment of the Irish revolution's place in a key moment of world history as well as the role of the press and journalism in the conflict This important book is essential reading for anyone interested in Irish history and how our understanding of history generally is shaped by the media

Irish Media John Horgan, 2012-11-12 *Irish Media A Critical History* maps the landscape of media in Ireland from the foundation of the modern state in 1922 to the present Covering all principal media forms print and electronic in the Republic and in Northern Ireland John Horgan shows how Irish history and politics have shaped the media of Ireland and in turn have been shaped by them Beginning in a country ravaged by civil war it traces the complexities of wartime censorship and details the history of media technology from the development of radio to the inauguration of television in the 1950s and 1960s It covers the birth development and sometimes the death of major Irish media during this period examining the reasons for failure and success and government attempts to regulate and respond to change Finally it addresses questions of media globalisation ownership and control and looks at issues of key significance for the future Horgan demonstrates why in a country whose political divisions and economic development have given it a place on the world stage out of all proportion to its size the media have been and remain key players in Irish history
