come in many guises a car crash in Vienna a discussion forum in Dresden a baker's queue in Paris an art festival in Shiraz an unbuilt house in Istanbul a law court in Berlin a photograph from Arkansas Taking their cue from Hannah Arendt's famous concept the case studies in this volume written in close collaboration examine how the perceptive standards of a given political situation may subtly change or consolidate Supported by a wealth of images this volume demonstrates how the concept can be activated for innovative research especially in cases where an understanding of aesthetics and politics needs to go beyond their analogization Featuring an essay by Susan Buck Morss *How We Walk* Matthew Beaumont, 2024-03-12 In this fascinating and wide ranging book Beaumont reminds us that walking is far from a neutral activity With the help of Frantz Fanon Beaumont locates freedom at the level of the body free from the systems of oppression exploitation and harassment Lauren Elkin author of *Flâneuse* How race class and politics influence the way we move You can tell a lot about people by how they walk Matthew Beaumont argues that our standing walking body holds the social traumas of history and its racialized inequalities Our posture and gait reflect our social and political experiences as we navigate the city under capitalism Through a series of dialogues with thinkers and walkers his book explores the relationship between freedom and the human body *How We Walk* foregrounds the work of Frantz Fanon psychiatrist and leading thinker of liberation who was one of the first people to think about the politics of walking while black It also introduces us to the renegade psychoanalyst Wilhelm Reich who wrote that one could discern the truth about a person through their posture and gait For Marxist philosopher Ernst Bloch the ability to walk upright and with ease is a sign of personal and social freedom Through these excursions Beaumont reimagines the canonical literature on walking and presents a new interpretation of the impact of class and race on our physical and political mobility raising important questions about the politics of the body Negativity and Democracy Vasilis Grollios, 2017-01-12 The current political climate of uncompromising neoliberalism means that the need to study the logic of our culture that is the logic of the capitalist system is compelling Providing a rich philosophical analysis of democracy from a negative non identity dialectical perspective Vasilis Grollios encourages the reader not to think of democracy as a call for a more effective domination of the people or as a demand for the replacement of the elite that currently holds power In doing so he aspires to fill in a gap in the literature by offering an out of the mainstream overview of the key concepts of totality negativity fetishization contradiction identity thinking dialectics and corporeal materialism as they have been employed by the major thinkers of the critical theory tradition Marx Engels Horkheimer Lukacs Adorno Marcuse Bloch and Holloway Their thinking had the following common keywords contradiction fetishism as a process and the notion of spell and all its implications The author makes an innovative attempt to bring these concepts to light in terms of their practical relevance for contemporary democratic theory *The Principle of Hope, Volume 3* Ernst Bloch, 1995-05-26 The Principle of Hope is one of the great works of the human spirit It is a critical history of the utopian vision and a profound exploration of the possible reality of utopia Even as the world has rejected the doctrine on which Bloch sought to base his
