The Private Nuclear Strategists:

The Private Nuclear Strategists Roy E. Licklider, 1971 **Peace Studies** Matthew Evangelista, 2005 The academic field of Peace Studies emerged during the Cold War to address the nature and sources of interstate and internal conflict and methods to prevent it and deal with its consequences **Security with Nuclear Weapons?** Regina Cowen Karp, 1991 SIPRI Stockholm International Peace Research Institute is an independent institute for scientific research which aims to further an understanding of the conditions for peaceful solutions to international conflicts and for a stable peace Over the past twenty years SIPRI has concentrated on problems of armaments disarmament and arms regulation SIPRI is financed mainly by the Swedish Parliament Its staff the Governing Board and the Scientific Council are international The prospect of large reductions of nuclear weapons poses fundamental questions about the purpose of nuclear weapons Why have some states chosen to acquire nuclear weapons How and why have these decisions been maintained over time Why have some states elected to approach but not cross the nuclear threshold This book examines the commonalities and differences in political approaches to nuclear weapons both within and among three groups of states nuclear non nuclear and threshold The chapters explore the evolution of thinking about nuclear weapons and the role these weapons play in national security planning The book transcends traditional East West approaches to analysis of nuclear issues by giving equal prominence to the issues of nuclear proliferation and non nuclearism The book also provides a comprehensive analysis of how current approaches to nuclear weapons have evolved both within and among the countries under study Communitarian International Relations Emanuel Adler, 2004-11-10 In Emanuel Adler s distinctive constructivist approach to international relations theory international practices evolve in tandem with collective knowledge of the material and social worlds This book comprising a fresh selection of his journal publications a substantial new introduction three previously unpublished articles points IR constructivism in a novel direction characterized as communitarian Adler s synthesis does not herald the end of the nation state nor does it suggest that agency is unimportant in international life Rather it argues that what mediates between individual and state agency and social structures are communities of practice which are the wellspring and repositories of collective meanings and social practices The concept of communities of practice casts new light on epistemic communities and security communities helping to explain why certain ideas congeal into human practices and others do not and which social mechanisms can facilitate the emergence of normatively better communities **Comparative Study on Nuclear Strategies** 张树军 Zhang Tuosheng, 李斌 Li Bin, 樊际世 Fan Jishe, 2015-01-01 9 *Public Management Sources* United States. Bureau of the Budget. Library, 1971 *Strategy and Ethnic Conflict* Laure Paquette, 2002-02-28 Ethnic conflict now presents the thorniest problems for military and civilian strategists of all stripes This book presents a new general theory of strategy encompassing studies of the relationship between values interest and strategy as these relate to ethnic conflicts It focuses on the relationship between values and strategy building a theory on the hypothesis that

national values influence national strategy Paquette s research reveals that national values influence national strategy through three mechanisms cognition appreciation and evaluation Each mechanism and indeed the whole value focused approach to strategic thinking is described using a network of interrelated statements Paquette develops a methodology specific to the issues of international security and ethnic considerations She tests this theory extensively for internal consistency before applying it to a single historical case French decision making on national strategy between 1955 and 1970 however because of its generality this same theory could easily be applied to other cases As with any theory it is possible to vary successively or simultaneously assumptions or conditions and to derive new predictions This process of deriving variations has the potential to help in the training of strategists both military and civilian New Scientist ,1972-10

Bernard Brodie and the Foundations of American Nuclear Strategy Barry Howard Steiner,1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom **Moscow's Defense Intellectuals** Benjamin S. Lambeth,1990 **Arms Control and Disarmament** Library of Congress. Arms Control and Disarmament Bibliography Section,1972 **The Ethics of Research of the Private Nuclear Strategists** ,1979 **Helsingin Yliopiston Maantieteen Laitoksen Julkaisuja** Helsingin yliopisto.
