The Problem of History in Mark James Robinson, 2010-09-01 A collection of essays on political issues examining the interplay between religion and politics with emphasis on American faith communities rooted in biblical tradition **Jesus, Skepticism, and the Problem of History** Zondervan, 2019-10-08 In recent years a number of New Testament scholars engaged in academic historical Jesus studies have concluded that such scholarship cannot yield secure and illuminating conclusions about its subject arguing that the search for a historically authentic Jesus has run aground Jesus Skepticism and the Problem of History brings together a stellar lineup of New Testament scholars who contend that historical Jesus scholarship is far from dead These scholars all find value in using the tools of contemporary historical methods in the study of Jesus and Christian origins While the skeptical use of criteria to fashion a Jesus contrary to the one portrayed in the Gospels is methodologically unsound and theologically unacceptable these criteria properly formulated and applied yield positive results that support the Gospel accounts and the historical narrative in Acts This book presents a nuanced and vitally needed alternative to the skeptical extremes of revisionist Jesus scholarship that on the one hand uses historical methods to call into question the Jesus of the Gospels and on the other denies the possibility of using historical methods to learn about Jesus

The Problem of History in Mark James M. Robinson, 1971 **Textual Criticism and the Synoptic Problem in Historical Jesus Research** Hyeon Woo Shin, 2004 The criteria for originality priority and authenticity used in textual criticism the study of the Synoptic Problem and historical Jesus research share one basic similarity they were all designed to distinguish a prior tradition from its later developments All these areas of research investigate the transmission process which involves both preservation and alteration The sets of criteria used in one area are thus analogous to the sets of criteria used in the other two areas This assumption can be confirmed by observing numerous instances of such similarity in these sets of criteria On the basis of this assumption many other instances of similarity may be newly attained by adapting the set of criteria used in one area for use in the other two areas The sets of criteria for these three areas of research can be further

generalized into a mother set of criteria which will provide us with a degree of methodological unification in these disciplines
