Matas, L. D. Schmadel, G. Zech, 2013-12-14 Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of the literature concerning all aspects of astronomy astrophysics and their border fields. It is devoted to the recording summarizing and indexing of the relevant publications throughout the world. Astronomy and Astrophysics Abstracts is prepared by a special department of the Astronomisches Rechen Institut under the auspices of the International Astronomical Union. Volume 40 records literature published in 1985 and received before February 15 1986. Some older documents which we received late and which are not surveyed in earlier volumes are included too. We acknowledge with thanks contributions of our colleagues all over the world. We also express our gratitude to all organizations observatories and publishers which provide us with complimentary copies of their publications. Starting with Volume 33 all the recording correction and data processing work was done by means of computers. The recording was done by our technical staff members Ms Helga Ballmann Ms Mona El Chourati Ms Monika Kohl Ms Sylvia Matyssek Ms Karir Burkhardt Ms Susanne Schlötelberg Mr Martin Schlötelburg and Mr Stefan Wagner supported our task by careful proof reading. It is a pleasure to thank them all for their encouragement.

The Case for Mars ,1987      **A Passion for Mars** Andrew Chaikin, 2008-10. The quest for Mars is chronicled by bestselling author Andrew Chaikin in this story of a passionate band of Earthbound explorers caught in the irresistible pull of the Red Planet. They include celebrated figures astronomer Carl Sagan who champions the idea of life on Mars rocket scientist Wernher von Braun drawing up plans for human Mars expeditions and science fiction author Ray Bradbury standard bearer for Mars's crucial place in human destiny. Readers also meet the rogue grad students known as the Mars Underground keepers of the flame when Mars falls off NASA's radar biologist Jerry Soffen looking for signs of life in a Martian meteorite geologist Mike Malin who defies skeptics to reveal a Mars no one imagines and many others including Chaikin himself who served on the first Viking Mars landing and covered Mars exploration as a science journalist. Based on extensive interviews illustrated with compelling images and animated by the author's own passion Chaikin's account will resonate with anyone who has ever dreamed of a journey to Mars.
