The Challenge Of Effective Speaking Custom:

The Challenge of Effective Speaking Rudolph F. Verderber, 2000 Wadsworth's best selling Public Speaking text the Verderber's CHALLENGE OF EFFECTIVE SPEAKING features a skills oriented mainstream approach that has effectively led hundreds of thousands of students through the challenges they face as they develop and deliver speeches. The speech making process is presented in a six step framework based on classical and contemporary theory. The straightforward writing style and effective use of examples enables students to understand and effectively perform key speech making activities. The six step framework emphasizes topic selection, audience analysis, and adaptation, effective research including appropriate use of Internet resources, organization with emphasis on outlining, language and delivery. The six action steps are introduced in generic form and then later adapted to follow principles of informative and persuasive speaking.

Speechwriting in Perspective Thomas H. Neale, Jean M. Bowers, 2003 Writing for the spoken word is a special discipline; it requires that speechwriters' products be written primarily although not exclusively to be heard not read. Speeches are better cast in simple, direct and often short sentences that can be easily understood by listeners. Rhetorical devices such as repetition, variation, cadence and balance are available to and should be used by the speechwriter. It is important for speechwriters to analyse audiences according to factors such as age, gender, culture, profession and income level, size of audience, political affiliation if any and on the occasion for or purpose of the speech. Most effective speeches do not exceed 20 minutes in length. After researching a topic, speechwriters must prepare an outline from which the speech will be developed. They should strive to maintain a clear theme throughout the speech. Most speeches will have a three part structure consisting of an introduction, a body and a conclusion. The accepted style of contemporary American public address is natural, direct, low key, casual and conversational. This puts the listeners at ease and promotes a sense of community between the audience and speaker. Punctuation should reflect the sound structure of the speech, reinforcing the rhythm and pace of actual speech. Clarity of expression is as important a consideration in speech grammar as rigid adherence to the rules for written law. This book presents the essentials of speechwriting.
