('Christianity has a negative impact on society'. Discuss)

('Secularists who say that Christianity is a source of unhappiness are wrong.' Discuss)

(Assess the view that Christianity should be a significant contributor to society's culture and values.' Discuss)

('Christianity has contributed practically toward social cohesion.' Discuss)

INTRO

- With the continuing rise of a secular state, the continuing rise of atheism and anti-theism as well as the birth of non-religious worldviews such as humanism, secular views assert powerful challenges to Christianity
- Throughout this essay I will explore whether this rise in secularism is a positive one, or whether it has removed fundamental Christian values that were inherent within our culture and society.
- Although scholars such as Jo Marchant and Christopher Dawson put forward convincing arguments to support the idea that Christianity should contribute to society's culture and values, nevertheless I will show that the arguments put forward by Dawkins and Freud that Christianity has a negative impact on society arguments much more successful and persuasive.

Para 1- Christianity has a positive impact with eval

- Secularisation is the view that the state and religion should be separate- Important to note that being secular does not mean one is anti-theist
- **P= QUESTIONABLY BELIEVE** that Religion should be involved in the state- **British monarch, Queen Elizabeth II** is also the head of the CofE, and by ancient tradition, Defender of the Faith. Also Anglican Bishops in the House of Lords, the upper chamber of Parliament
- **E= ILLOGICALLY** argue that religion has provided stability for the government and it is part of the tradition in the UK- religion is involved in the state. Also in the 19th century, Christian churches established schools for the poor in England. Anglican Bishops were instrumental in the decriminalisation of homosexuality in the 1960s, at a time when other parts of the British establishment resisted change. Many prominent civil rights activists who played a leading role in challenging segregation in the USA, such as MLK Jr were religious. And many of the food banks run by volunteers throughout the UK today were set up and are now run by Christians and local churches. Shows positive impact on society.
- Also **Jo Marchant- IRRATIONALLY** argues that there is a positive medical and psychological benefits arising from some beliefs and practices e.g social gatherings, beliefs in a loving God, time of prayerful stillness and silence-a scientists who believe that Social connections and a belief in the transcendent were important features for living happier and longer lives.- "Feeling part of something bigger may help us not only

Bowlby, 2006-01-01 What is Religious Studies and what is its future in Atlantic Canada How have universities founded by Roman Catholic and Protestant denominations and public universities differed as they approached the study of religious life and traditions Religious Studies in Atlantic Canada surveys the history and place of the study of religion within Canadian universities Following a historical introduction to the public and denominationally founded universities in the Atlantic region the book situates the departments of religious studies in relation to the distinctive characteristics of the various universities in the region focusing on curriculum research and teaching Bowlby examines the current strengths of the religious studies departments in Atlantic Canada and where those departments are fragile i.e. where departments have thrived because of careful long term planning as well as where crises of retirements have radically affected the size and strength of departments In conclusion Bowlby suggests strategies for future survival and growth in the field of religious studies Religious Studies in Atlantic Canada is the last of a six part series on the state of the art of religious studies in Canada a unique account of the regional differences in the development of religious studies in Canada Written for anyone interested in the teaching of religion as well as the specialist the book provides an introduction and an overview of religious studies curricula faculty research and teaching areas at the region's universities **Educating Religious Education Teachers** Jenny Berglund, Bert Roebben, Peter Schreiner, Friedrich Schweitzer, 2023-07-10 International knowledge transfer in religious education RE is still a fairly new topic Many scholars in the field consider this discussion of prime importance for the future of both the academic discipline of religious education and the related school subject RE This book continues this discussion and specifies it in the direction of teacher education Its focus is on the challenges that teacher students and their trainers are facing in the light of RE in a pluralized and detraditionalized society The impact of these challenges on RE research is obvious However international exchange of research results for purposes of comparison and mutual enrichment is still rare This book provides insights that can encourage and facilitate this exchange *Defeating the Evil-God Challenge* Jack Symes, 2024-05-16 Examines the evil god problem through three lenses of philosophical theology International Journal of Religious Education , 1939 Religious Education Bibliography United States. Yale Studies in the History and Theory of Religious Education, 1938 *Contemporary Challenges for Religious and Spiritual Education* Arniika Kuusisto, Terry Lovat, 2017-10-02 From being on the margins of scholarly debate for much of the past century and a half religion is being recognized once again as an area of concern for scholars politicians and public policy makers and thus the role of religious and spiritual education has taken on a new importance Apart from its socio political ramifications the place of religiousness and spirituality in the make up of individuals has been given renewed prominence through updated brain science and neuroscientists regularly refer to elements of this brain science in terms such as spiritual intelligence and even mystical consciousness This book explores many of the new directions being taken in the field of religious and spiritual education as new developments challenge the priorities of formal education and open up new avenues for incorporating religion and spirituality into the modern curriculum It asks whether the educational aims of teachers should be focused on specifically personal development or whether religious education should be used to develop understanding of more global and social issues such as citizenship conflict and ethics The book also addresses neuroscientific insights which suggest a need to engage with cognition and emotion in order to create a rich learning environment something to which a particularly contested subject area like religion and spirituality is well placed to contribute This book was originally published as a special issue of the Journal of Beliefs Values
