The Charade Backfires:

The Charade Backfires E. Rische, 2003-03-24 Odilia's trust fund is just about depleted by the time she earns her Ph D in Child Psychology. When she mentions that she would like to get a job as a nanny, her friends scoff, claiming she couldn't commit to a specific job for any length of time. She decides to prove them wrong and makes a bet. The day she's hired as a nanny, her life as Ms. Raines, a woman age 50, begins. Jason Galent, who recently became the guardian of his young niece, needs a nanny like yesterday. Two days of interviews find him tired and dispirited until Ms. Raines walks in. Suddenly, he not only has a nanny but a mystery woman as well. The charade has begun. He sets his traps, only to fail time after time. A hostage situation, a serious hand injury, an unveiling, a wedding, an emergency appendectomy, a busy itinerary, a serious health problem, and a surprising discovery. **THIS ROMANCE HAS IT ALL** Military Implications of the Treaty on the Limitation of Strategic Offensive Arms and Protocol Thereto (SALT II Treaty) United States. Committee on Armed Services, 1979 The Family Guide to Movies and Videos Henry Herx, 1995 Backfire Christopher Newman, 1990 In 1963 a beautiful young girl dies in the middle of an abortion on a cold table in a motel room. The cover up is quick, quiet, and for almost thirty years worth every penny. Now it's 1991. At the dawn of a presidential campaign, the old secret suddenly surfaces. To one man it means enormous profit. To a second man it means a lethal mystery. When the stakes are high, there are no loyalties and no rules, even for top level U.S. government agents. Especially for them. **TV Guide**, 2006 **Siting Low-Level Radioactive Waste Disposal Facilities** Mary R. English, 1992-06-16 Many lament the difficulty of siting hazardous waste facilities that are intended to benefit the public at large but are locally unwanted. Many label local opposition as purely self-interested, as simply a function of the NIMBY (Not In My Backyard) syndrome. Drawing upon the experience of states trying to site new low level radioactive waste disposal facilities, Mary English argues that we need to think harder and look deeper to understand and possibly solve the siting dilemma. The 1980 Low Level Radioactive Waste Policy Act ushered in a new era in low level radioactive waste disposal, one of vastly increased state responsibility. By a 1985 amendment, states were given until January 1993 to develop a new system of disposal facilities. English reviews the progress they have made, focusing on one difficulty: that of finding technically and socially acceptable sites. She then turns to issues concerning authority, trust, risk, and justice that help to shape the siting dilemma. This book is made highly readable by vivid examples drawn from recent efforts to site low level waste disposal facilities. The volume will be a helpful resource to those in the public and private sectors who are immediately concerned with the siting of radioactive waste disposal facilities.
